General Comment

This is America, where we have freedom of "speech", which can mean many things. One of those things is the ability to "vote" with our pocketbooks! We also have a right to defend our environment from the gross polluters who would destroy it for us and our future generations. One of the ways to defend our planet is by boycotting those companies that do harm, as well as not giving them our investment dollars. If we choose to invest in "green" funds that should be OUR choice, with no limitations.
