General Comment

To Labor Secretary Eugene Scalia,

As a private retired American citizen I want to thank you for recognizing and doing something about the corruption in our fiduciary's methods of selecting investments for their clients... If I understand it correctly, RIN 1210-AB95 calls for investments to be made solely on what is the most profitable and best returns for the client.

1. ESG investing puts pensioners future retirement funds at risk.
2. ESG investing is a violation of a fund managers fiduciary responsibilities under the law.
3. DOLs proposed rule protects retirement funds of tens of millions of Americans of all political stripes

Please know that there are many, many citizens that support you in what you are trying to accomplish and appreciate you for standing up for us and our investments.
