Financial Factors in Selecting Plan Investments

Document: EBSA-2020-0004-DRAFT-0978
Comment on FR Doc # 2020-13705

Submitter Information

Name: Mekdem Wright

General Comment

The current federal administration presents itself as a champion of free choice. I expect those values and principles to be applied to my options as a consumer and an investor. The EBSA's proposed rules around Financial Factors in Selecting Plan Investments are doing the opposite of that in reducing the availability of ESG-integrated retirement funds for the many Americans that want them.
