## General Comment

This email is concerning a purposed rule by the Employee Benefits Security Administration. I would like to add my voice in supporting the amendments to the "Investment duties" regulations. As a recent retiree, I now live on a small pension and the funds I have invested in my 401K throughout the past 20 years. I would like the peace of knowing that the investors who are handling my funds are being required to act prudently so as to minimize risk and loss for what I have worked so hard to invest. I am very much in favor of these responsibility rules and the job that Secretary of Labor Eugene Scalia is performing for the citizens of America.
