General Comment

I support this proposed rule, and I stand behind Labor Secretary Eugene Scalia. The left (including but not limited to Elizabeth Warren) HATES this proposal because they hate capitalism - despite the fact that they benefit from it every single day. So called "ESG investing" is a lie and, as stated in the supplementary information of this proposed regulation (here: <https://www.federalregister.gov/d/2020-13705/p-39>), does not support the purpose of average the American's investments, namely retirement. It is intended to push forward the left's political agenda that effectively cancels the retirement plans and dreams of all Americans — blacks, whites, left, right, capitalists, socialists... This kind of foolishness does not discriminate. It is backward thinking and is simply evil.
