General Comment

I support The Department of Labor's proposed amendments to the "Investment duties" regulation under Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), to confirm that ERISA requires plan fiduciaries to select investments and investment courses of action based solely on financial considerations relevant to the risk-adjusted economic value of a particular investment or investment course of action. I do not feel my retirement funds should be secretly supporting political endeavors. If I want to support politics with my money, I can do that myself openly without secrecy.
