## General Comment

I believe it is very important to invest in a sustainable future. I want the Dept of Labor to adopt the "Prudence and Loyalty in Selecting Plan Investments and Exercising Shareholder RIghts" rule. Retirement (ERISA) managers must be empowered to evaluate all factors that impact risk and return, including climate change, which affects nearly every sector of the economy. I am glad to see the Proposed Rule restores fiduciary authority to consider all relevant, financially material factors. Please approve this rule.
