General Comment

My broker has been taking care of my interests for quite a few years now and I want to keep it this way. I and my broker need to decide what companies are good to invest in, not you. A lot of times I dont agree with government as to what is good for the environment and what is not. When the government and, a lot of times, the science can prove the long term effectiveness of environmental restrictions I may listen. When I say long term I mean 500 year consequences or gains.
Thank you for your consideration.
