General Comment

Regarding the Department of Labor RIN#1210-AB32:
Do not regulate, restrict or redefine any part of my IRA account. It is not the government's job to tell me how to invest my money with the exception of Social Security. And we all know how that is going. Investors with IRA's, SDIRA's and SD401K's should be allowed to make their own decisions without government restriction, regardless of intent. Doing our own homework is part of the process, and the buyer beware.
