General Comment

Once again the Government tries to impose its desires on its hapless citizens. You have no right to tell us what we can and can not do to protect our retirement portfolio's in any method we (NOT YOU) deem desirable. I have been managing my own investments both qualified and non-qualified for many years and often make use of option trading in both accounts to help hedge against portfolio risk. I have been doing this for many years and DO NOT NEED the government to decide what is best for me and my livelihood as if we are small children with no experience or brains. PLEASE keep your nose out of this area-you have no right to try to impose what we are allowed to do w/in our retirement accounts and what steps WE CHOOSE to protect ourselves. A concerned and angry citizen
