General Comment

Dear Sir/Madam

How else are we "the people" supposed to look after ourselves if the government keeps interfering with our finances. Options is a great way to grow retirement savings. The federal reserve has tampered with the markets for so long and peoples savings are wiped out due to market crashes caused by irresponsible government regularities. Please leave us alone and let us steer our own futures. It has nothing to do with the government. These type of decisions anger us. The government cannot support me and my family and i am trying to carve out my own future. we do not need interfering. PLEASE! find other ways to fix the original problem but don't cause us more harm.

Regards
