General Comment

Please do not shut down the ability of investors to use options in there 401k or IRA accounts. It is a safer way to protect your investments than having to buy and sell higher risk assets. By using the options correctly without using high leverage is safe. It is only the people speculating your are trying to stop.

Options are a safer way to increase our retirement accounts than speculation on which stocks will go up and not down if done right you set your KNOWN limit of loss.

Please rethink this bill.

By trying to protect us you are only taking away our freedom and forcing our costs up!
