## General Comment

Being able to trade stock options in my retirement account has been vital to me REDUCING the risk and building savings in my retirement account. I have no idea why the government thinks they need to take away this tool. If this rule passes as it is written, it will take away my ability to GROW my retirement account while REDUCING my risk. This rule was obviously written by someone who does not understand stock options. I urge the department of labor to rescind this proposed rule immediately.
