General Comment

Do NOT stop options trading in retirement accounts. Many retirees including myself use this method to add a little each month to our accounts. Most of us have access to training at many different levels and use that training in options to earn additional income in retirement. No exotic options trading, just covered puts and calls. Are you trying to keep many of us from making additional retirement income? You want us to take money out of retirement accounts, pay taxes on it, and then place into another account to use for options trading? The system isn't broken, so don't try to fix anything. Just another form of discrimination from what I can see. DO NOT STOP OPTIONS TRADING IN RETIREMENT ACCOUNTS. Thank you -
