## General Comment

As a self-directed IRA holder, I do not want any limitations placed on my ability to trade options. I use options as insurance against sudden downturns in my stock holdings as well as a source of income when I sell puts on stocks I either hold or wish to buy at a lower price than the market. I have Also benefited mightily from education provided by my broker and others on option trading. Please reconsider the aspects of this rule that would limit my ability to trade options and to learn more About them.
