General Comment

Do NOT interfere with my ability to use options in a reasonable way to protect my retirement fund and to grow my retirement account. I am an adult who knows what is best for my future financial well-being, I do not need a paternalistic, unknowing, bloated government telling me what I can or cannot do with my fund. When you have brought government debt, overspending, inefficiencies, and general corruption under control I will listen to you. Get your own house in order before you try to tell me what to do. I have made more money and protected my investments better using covered calls and puts than without them. If you should pass this asinine regulation then be sure to make it applicable to all retirement accounts, including all accounts for ALL government employees, including Congress and your own agency, union and non-union. I am an American and I want my freedom back!
