## General Comment

my family uses options to reduce risk in our family of retirement portfolios. i dont need the government telling me how to run my retirement account. i understand that some people use options to leverage up and make risky investments but ido not and the way the new rule is written it will restrict me from using options to LIMIT MY RISK. please either rewrite the rule to do not adopt it a written because it will cause financial HARM to me, my parents and many citizens nationwide who use options to limit risk not take more risk on
