General Comment

I have been doing "covered calls" in my retirement account for over two years. It has been a source of extra income I would not receive if I was not able to do this. Please do not cut off my means of generating extra income. I took a major hit during the last crisis and I need as many tools as I can use to allow me to live. I do not speculate but use only high quality stocks and ETF's. This system is safer than owning stocks and any losses are minimal. Thanks
