General Comment

Why does the government think they have to treat people as children....when it comes to 401k accounts!!!..... I do not want the government regulating how I can trade...particularly when It comes to Option trading & my 401K accountthe government needs to Get Out of the Business of telling people how to trade!!!..... I have spent many years learning how to trade different types of options....I do not think that the government has the right.... on placing limits....how to trade.....and what kind of trades to make..... people now the risks before they get into a trade.....the Government already has it's hands.... into too many things....and all they do is screw it up for everybody!!! Keep the Government out of my Retirement account.....It is my money.... I earned it!!!..... not the Government!!!!
