General Comment

Hello,

I don't have a problem with the advice part of the proposed rule, but I would like to continue trading in my IRA.

There are safe

ways to trade options within an IRA. What I would like to see is employee sponsored 401K plans should have to provide a

cash account that an investor can move assets to before a market crash. This is where a people are losing value because

there is no safe haven in the 401K plan. Participants can't take money out until they retire, so they are at the fate of the market.

Thanks for your attention.

Jack
