General Comment

Going to be candid here, apologizes to anyone that takes offense, but quite frankly we do not have time to waste on stupidity or idle chit chat.

1- do not assume the consumer is dumb and only the government can protect them, our founding fathers developed the constitution with limiting the power of the federal government, ever law and regulation passed tends to undermine this principle
2- the constitution does not give the government the obligation to eliminate all risk to its citizens.

I do not want nor need the federal government to restrict option trading in a retirement account, in fact I would prefer less restrictions on where I invest MY money
