## General Comment

I am ADAMANTLY opposed to this proposed rule exclusively because of the prohibition it will create to continued use of my IRA to trade options. I agree with the fiduciary and conflict of interest aspects of it.

I use options in my IRA accounts to REDUCE my risk by hedging my portfolio during times like these. I also use my IRA accounts to generate income through low-risk SELLING of puts and calls on high quality companies that I'd like to own anyway. In the current low rate environment presented to we investors by the government through the Fed this is one of the only options I have to generate reasonable, safe income in my IRA.

PLEASE do not approve this rule change.
