## General Comment

I'm not sure if this is true, but some are interpreting this legislation as one which will not allow options to be traded in an IRA account. I hope this is not true because options, when used correctly allows one to protect the stocks in a portfolio, and are actually safer than buying stocks or ETF's.

I ask you to please do not disallow trading options in an IRA account and could you please reply to me if that is the intent of this legislation ?

Thank You,  
James Paoletti
