Re: RIN 1210 –AB32

Dear Sirs:

I strongly urge you to **NOT** pass any legislation that would hinder my ability to trade (sell) covered call options in my IRA accounts. I have done this successfully for decades and it has provided me with a wonderful income stream. This form of option trading (selling – rather than buying) is not at all dangerous.

**This proposed legislation is patently unfair** as it would limit investors, such as myself, from utilizing all of the investment tools Wall St. provides.

Sincerely,

Larry Herbst
