Subject: RIN 1210 ? AB32 - Please do not remove options trading from IRAs

Please do not remove the ability of citizens to trade options in their IRAs. Without options, my account will be crippled - I will not be able to make enough money to live on - my account volatility will soar without the ability to buy options and to write covered call options - I will cease to be a member of the middle class and will fall into the next class down - guess you call this the lower class.

I would then have to start taking the handouts from the government that you are presently giving those that refuse to work for a living - I will be yrs old next month and no one will hire me due to my age .

Shame on you if you do this - it makes absolutely no sense.
