Hello folks,

I have found writing covered calls on blue chip stocks in my IRA account to be both profitable and reduces my investment risk on capital. A regulation that takes away my option to use options in my IRA doesn't benefit me or help.

Please don't take this vital strategy away from me. I have written software over 30 years now. My employment opportunities are fading in the anemic economy. Please do not take away my ability to grow a decent retirement.

Thanks

John Roye
