This rule will restrict the trading of options in IRA accounts. Remove this/these restrictions for the USA citizens who can have an alternative to work. Having this right enables all ages to improve their financials. Those with and without a job.

I have and many others have taken the time to learn proper options trading. It has grown many retirement accounts and will continue to grow. This growth inturn will be taxable when withdrawn/dispursed. option trades reduce risk, rather than increase it.

Do not prevent the freedom of choice for the US citizens. A decision to prevent this opportunity/chioce will only pose greater burden on government.

Empower the people to make choices, remove the restrictions to trade options in my IRA accounts

Thank you

George G
US citizen
