Dear Sirs,

Please don't take away one of the few ways we small investors have to grow our retirement accounts. I've taken several years of instruction on how to trade options safely and it has enabled me to grow my account to an extent that simple buying and selling of stocks wouldn't provide.

With interest rates so low or nonexistent, there are very few tools left for small investors to use to invest successfully.

Don't "fix" something that doesn't need "fixing". Vote against eliminating options trading in retirement accounts of small investors.

Sincerely,

Pam Busby
