Sir or Madam,

I am writing in reference to the proposed rule limiting options in IRAs.  
Options can make investing safer and there are mutual funds that use them to limit risk.  
Would you not be able to have those in an IRA?  
If used properly, options are helpful and their use should not be any more restricted than it is now.  
Investors should have choice. We are adults. What we need is transparency.

Thank you,
