**Subject:** Removing options from IRA trases.

To remove options from IRA's would be a great hardship for me. I have an IRA of about \$85,000 that I depend on for income. I have been selling options in this account for over two years and make enough to cover the money that the IRS requires me to remove from my IRA each year. Since nothing is paying any interest, to speak of, the options give me the only way of receiving necessary income to be able to keep up with inflation and higher health costs. I am . . . years old and a bit old to go looking for another job.

Please keep retirees like me in mind.
