To Whom It May Concern:

I would like to express my opposition to the Department of Labor's proposal to disallow options trading in IRA accounts. I have been trading options for well over 20 years and depend on the ability to use these securities to generate income during my retirement. I also use options to protect my stock positions during periods of high market volatility. Disallowing options trading would lower my income and place my investments under increased risk.

I believe that your proposal is short sighted and should be stopped immediately.
