Subject: DOL Limiting Choices in IRAs

Mr David Steuber

Dear Labor:

I STRONGLY OBJECT to the Department of Labor's (DOL's) proposed retirement rule that would limit my ability to trade listed options in my IRA. I have been trading options for many years with success. They are a versatile investment vehicle that can be used in many ways -- for example, to protect investments in stocks, particularly important in a retirement account such as an IRA.
The government has NO BUSINESS placing this limitation on my investment choices.

Sincerely,

Mr David Steuber
