			statistics in this reno			•			•	7,017	100	7,010

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Excludes "one-participant plans."

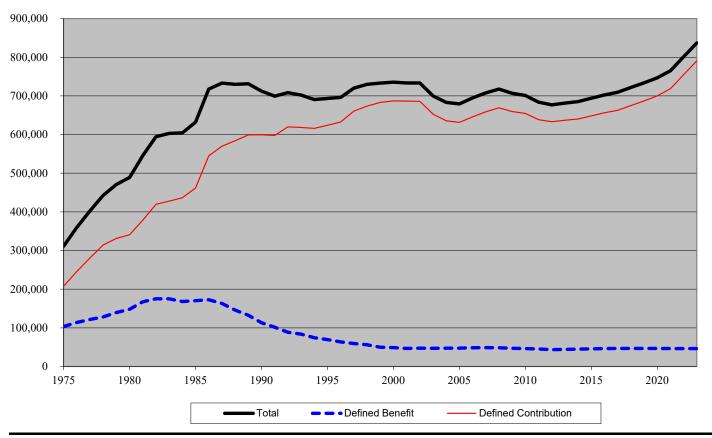

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer noncollectively bargained plans. Beginning in 2017, multiple-employer plans are classified as a distinct group.

<sup>&</sup>lt;sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained plans. Beginning in 2017, multiple-employer plans are classified as a distinct group.

### Graph E1g. Number of Pension Plans by type of plan, 1975-2023

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively SOURCE: Form 5500 and Form 5500-SF fillings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants are tabulated as of the end of the plan year.

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

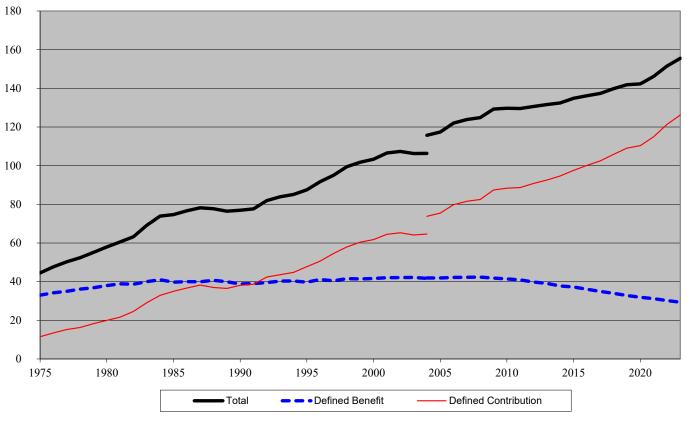

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained

<sup>&</sup>lt;sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts. SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

## Graph E4g. Number of Participants in Pension Plans by type of plan, 1975-2023

(millions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

#### Table E5. Number of Participants in Pension Plans with Fewer Than 100 Participants by type of plan, 1975-2023

(thousands)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

<sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-<sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively

<sup>&</sup>lt;sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants are tabulated as of the end of the plan year.

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained

<sup>&</sup>lt;sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts.

SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even if individuals are not contributing) and nonvested individuals who are earning or retaining credited service under the plan. For more information, please see the Instructions for Form 5500 at https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and-compliance/reporting-and-Between 2009 and 2013, because only a total number of participants was reported, all participants reported on the Form 5500-SF were assumed to be active for the purposes of this Bulletin. Since 2014, active participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

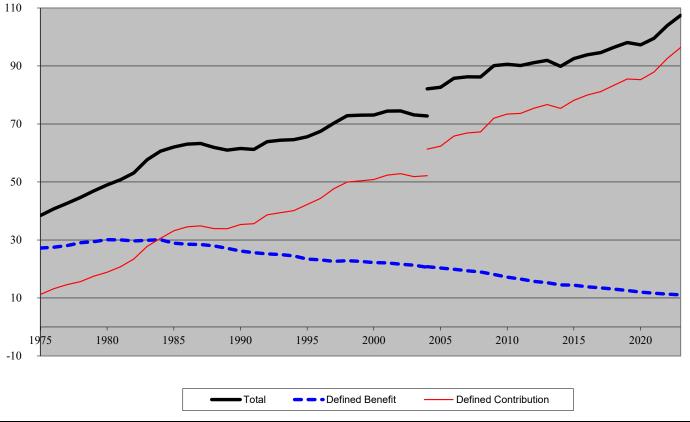

Appendix J discusses potential issues related to filing delays resulting from the COVID-19 public health emergency. The pandemic plausibly impacted retirement coverage broadly in the United States, at least temporarily. The 0.8 percent decrease in active participants in private-sector, ERISA-covered retirement plans from 2019 to 2020 seen here occurred despite a 1.8 percent increase in plans filing the Form 5500. This decrease was limited to large plans.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer 2 This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained

<sup>&</sup>lt;sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts.

### Graph E7g. Number of Active Participants in Pension Plans by type of plan, 1975-2023

(millions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even if individuals are not contributing) and nonvested individuals who are earning or retaining credited service under the plan. For more information, please see the Instructions for Form 5500 at https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and- compliance/reporting-and-filing/form-5500. For 2004 and earlier, active participants were adjusted to exclude individuals who were not contributing to the retirement plan and not entitled to receive benefits.

Between 2009 and 2013, because only a total number of participants was reported, all participants reported on the Form 5500-SF were assumed to be active for the purposes of this Bulletin. Since 2014, active participants are separately reported on the Form 5500-SF.

Active participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

Appendix J discusses potential issues related to filing delays resulting from the COVID-19 public health emergency. The pandemic plausibly impacted retirement coverage broadly in the United States, at least temporarily. The 0.8 percent decrease in active participants in private-sector, ERISA-covered retirement plans from 2019 to 2020 seen here occurred despite a 1.8 percent increase in plans filing the Form 5500. This decrease was limited to large SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Data for 1999 and beyond are based on actual count. Data for 1975-1998 are imputed.

The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even if individuals are not contributing) and nonvested individuals who are earning or retaining credited service under the plan. For more information, please see the Instructions for Form 5500 at https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and- compliance/reporting-and-Between 2009 and 2013, because only a total number of participants was reported, all participants reported on the Form 5500-SF were assumed to be active for the purposes of this Bulletin. Since 2014, active participants Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500.SF). Prior to 2017, this group also included multiple-employer <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained plans. <sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even if individuals are not contributing) and nonvested individuals who are earning or retaining credited service under the plan. For more information, please see the Instructions for Form 5500 at https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and-compliance/reporting-and-Between 2009 and 2013, because only a total number of participants was reported, all participants reported on the Form 5500-SF were assumed to be active for the purposes of this Bulletin. Since 2014, active participants Participants are tabulated as of the end of the plan year.

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

Appendix J discusses potential issues related to filing delays resulting from the COVID-19 public health emergency. The pandemic plausibly impacted retirement coverage broadly in the United States, at least temporarily. The 1.1 percent decrease in active participants in large private-sector, ERISA-covered retirement plans from 2019 to 2020 seen here occurred in parallel with a 0.3 percent decrease in large plans filing the Form 5500.

<sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained

<sup>&</sup>lt;sup>3</sup> The row 2004r shows participants for 2004 computed using the revised definition summarized in Appendix C: Changes to Participant Counts. SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

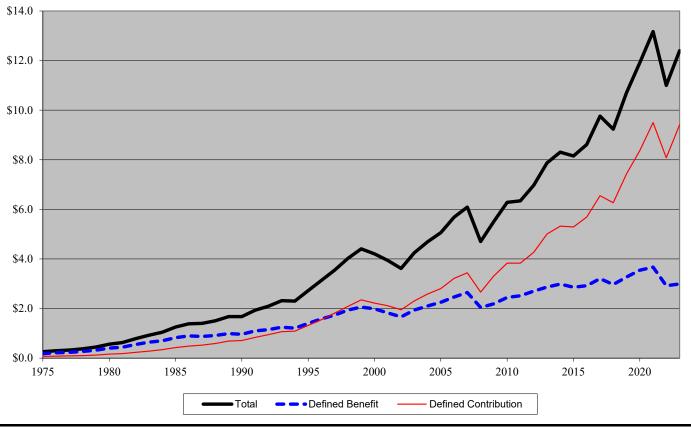

Assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year. Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

## Graph E10g. Pension Plan Assets by type of plan, 1975-2023

(trillions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

Assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

Participants and assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year. Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

Participants and assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year.

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer collectively bargained SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. This report defines Contributions as employer and employee contributions.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

### **Graph E13g. Pension Plan Contributions** by type of plan, 1975-2023 (billions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. This report defines Contributions as employer and employee contributions. Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

This report defines Contributions as employer and employee contributions.

Participants are tabulated as of the end of the plan year

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer as multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers. Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively SOURCE: Form 5500 and Form 5500-SF fillings with the U.S. Department of Labor.

## Graph E16g. Pension Plan Benefits Disbursed by type of plan, 1975-2023

(billions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers. Participants are tabulated as of the end of the plan year.

Some totals do not equal the sum of the components due to rounding.

<sup>&</sup>lt;sup>1</sup> This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer program are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included <sup>2</sup> This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively SOURCE: Form 5500 and Form 5500-SF filings with the U.S. Department of Labor.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants and assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics

<sup>1</sup> The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even

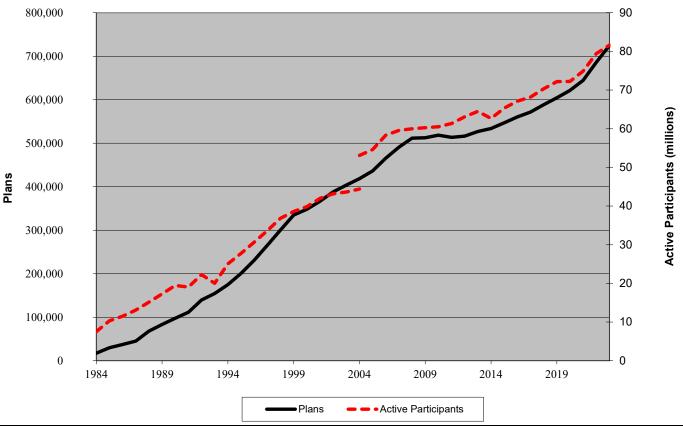

<sup>&</sup>lt;sup>2</sup> Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

### Graph E19g1. Number of 401(k)-Type Plans and Active Participants 1984-2023

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

The definition of active participants includes individuals who are eligible to elect to have the employer make payments to a 401(k)-type plan (even if individuals are not contributing) and nonvested individuals who are earning or retaining credited service under the plan. For more information, please see the Instructions for Form 5500 at https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and- compliance/reporting-and-filing/form-5500. For 2004 and earlier, active participants were adjusted to exclude individuals who were not contributing to the retirement plan and not entitled to receive benefits. Between 2009 and 2013, because only a total number of participants was reported, all participants reported on the Form 5500-SF were assumed to be active for the purposes of this Bulletin. Since 2014, active participants are separately reported on the Form 5500-SF.

Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

This report defines Contributions as employer and employee contributions.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers.

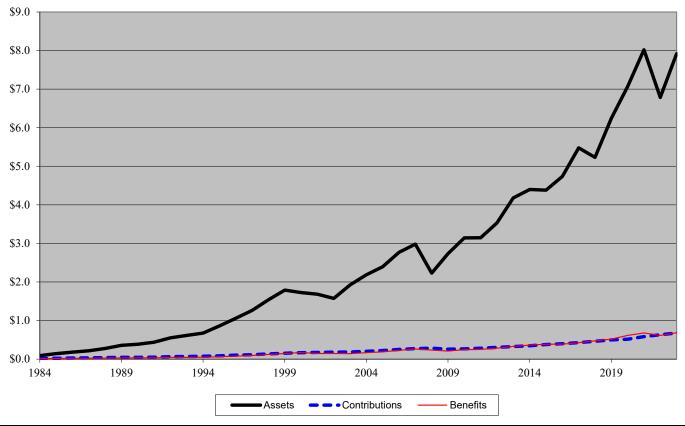

Participants are tabulated as of the end of the plan year.

Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

### Graph E19g2. Assets, Contributions, and Benefit of 401(k)-Type Plans 1984-2023

(trillions)

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

This report defines Contributions as employer and employee contributions.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers.

Assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year.

Excludes "one-participant plans."

underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Rates of return have been derived directly from tables C4-C9 and from similar published summary tables for prior years. The rate of return formula is the same as that described in Chapter 12 of the 1989 DOL volume entitled "Trends in Pensions," except that the return formula used here refines the treatment of receivables. The receivable line item called "income receivables," which first appeared on the 1988 form, is not deducted from total assets because such assets may produce investment income. The formula makes no adjustment for reporting periods other than one year, which are reported on approximately 3 percent of Form 5500 films. Sind educated with the declared such assets may produce investment income. The formula makes no adjustment for reporting periods other than one year, which are reported on approximately 3 percent of Form 5500 films. Secause the Form 5500 does not provide information on the timing of cash flows during the year, a time weighted rate of return cannot be derived. The formula used assumes that all cash flows occur in the middle of the plan's reporting period. The cash flow for which this assumption is most uncertain is contributions. The overall 1995 rate of return reported as 20.8 percent could be as low as 20.15 percent or as high as 21.53 percent depending on the assumption regarding the timing of contributions during the year

This report defines Single-Employer as single-employer plans and plans of controlled groups of corporations that are filing as a single-employer plan in accordance with the Form 5500 instructions. All defined benefit plans paying premiums to PBGC's single-employer plans are included (except for those that indicated being multiple-employer plans on the Form 5500 or Form 5500-SF). Prior to 2017, this group also included multiple-employer noncollectively bargained plans. Beginning in 2017, multiple-employer plans are classified as a distinct group.

2 This report defines Multiemployer as multiemployer plans and all defined benefit plans paying premiums to PBGC's multiemployer program. Prior to 2017, this group also included multiple-employer collectively bargained plans. Beginning in 2017, multiple-employer plans are classified as a distinct group.

<sup>&</sup>lt;sup>3</sup> Employee Stock Ownership Plans.

<sup>&</sup>lt;sup>4</sup> The geometric mean is computed by (1) adding one to the aggregate rate of return for each of the n years, (2) taking the product of the sums, (3) taking the nth root of the product, and (4) subtracting one.

<sup>&</sup>lt;sup>5</sup> Standard deviation formula uses a denominator definition of n, not n-1.

2014-2023								6.7	4.9

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

<sup>&</sup>lt;sup>1</sup> Average of beginning-of-year and end-of-year levels of all assets except contributions receivable and value of buildings and other property used in plan operations minus one-half of total return.

<sup>&</sup>lt;sup>2</sup> Sum of interest, dividends, and rents.

<sup>&</sup>lt;sup>3</sup> The Collective Investment Vehicle Income category includes direct filing entities (common/collective trusts, master trust investment accounts, 103-12 Investment Entities, and pooled separate accounts) and funds invested through registered investment companies and insurance company general accounts.

<sup>&</sup>lt;sup>4</sup> Sum of investment income, total appreciation, and total collective investment vehicle income.

<sup>&</sup>lt;sup>5</sup> Total return as a percentage of average investable assets. See the note on rates of return in Table E20 for more information.

<sup>&</sup>lt;sup>6</sup> Percentage increase in average investable assets (column 1) from previous year to current year.

<sup>&</sup>lt;sup>7</sup> The geometric mean is computed by (1) adding one to the rate for each of the n years, (2) taking the product of the sums, (3) taking the nth root of the product, and (4) subtracting one

2023	724,720	7,917,598	677,543	7,232,321	10,057	544,829	37,121	140,447

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Total asset amounts shown do not include the value of allocated insurance contracts described in 29 CFR 2520.104-44.

Assets are tabulated as of the end of the plan year. As a result, these statistics generally reflect market values from the end of December in each corresponding year.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File

Table E24. Number of Total and Active Participants in 401(k)-Type plans by extent of participant direction of investments, 1999-2023

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K. Participants are tabulated as of the end of the plan year.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

### Table E25. Contributions and Benefits of 401(k)-Type Plans by extent of participant direction of investments, 1999-2023

(millions)

Year	Total		Participant Directs All Investments		Participant Directs Investment of Portion Of Assets		Participant Does Not Direct Any Investments	
	Total Contributions	Total Benefits	Total Contributions	Total Benefits	Total Contributions	Total Benefits	Total Contributions	Total Benefits
1999	\$151,966	\$145,979	\$100,426	\$85,874	\$28,093	\$37,480	\$23,446	\$22,625

NOTES: The methods used to develop the statistics in this report have changed over time. These changes are outlined in Appendices A through K.

This report defines Contributions as employer and employee contributions.

Amounts shown include both benefits paid directly from trust funds and premium payments made by plans to insurance carriers. Amounts exclude benefits paid directly by insurance carriers.

Excludes "one-participant plans."

Some totals do not equal the sum of the components due to rounding.

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension Research File.

# Appendix A: Notes on Changes to the *Private Pension Plan Bulletin Historical Tables* since December 2011

#### December 2011: 2009 Data Release Version

- In Table E4, the "Total" column under the "Total Plans" section, which had been missing in the 2008 Data Release Version of these tables, was inserted.
- In Table E20, the aggregate rate of return earned by ESOPs in 2008 was updated to correct an improperly calculated value.
- In Table E22, the aggregate rates of return earned by total, non-leveraged, and leveraged ESOPs were updated to correct improperly calculated values.

## March 2012: Update to 2009 Data Release Version

• All data for 2008 was retabulated using the final 2008 Form 5500 Private Pension Plan Research File. In the 2008 and 2009 Data Release Versions of these tables, all statistics were tabulated using a version of the 2008 Form 5500 Private Pension Plan Research File that was not final.

### August 2012: Update to 2009 Data Release Version

• The Table of Contents and bookmarks were updated to match the title and date range of each table.

#### November 2012: 2010 Data Release Version

- The "Sampling Methodology Changes" appendix was added to outline changes made to the *Private Pension Plan Bulletin* beginning with 2010 data. The other appendices were renamed due to this addition.
- The "Weighting Methodology Changes" appendix was rewritten to better outline the methodologies used and the years in which each was used.
- Data in Table E8 and Table E9 were corrected for years 2004-2009. Previously, division of plans into those with 100 or more active participants and fewer than 100 active participants was made using total participants instead of active participants.

#### August 2014: 2012 Data Release Version

• The "Changes to Entity Type Classification" appendix was added to outline changes made to the *Private Pension Plan Bulletin* beginning with 2012 data.

### December 2014: Update to 2012 Data Release Version

• The values published for year 2012 did not reflect the most recent version of the 2012 Private Pension Plan Bulletin. This version corrects that issue.

### July 2016: 2014 Data Release Version

• The "Changes to Plan Classification and Participation" appendix was added to outline changes made to the *Private Pension Plan Bulletin* and *Research File* beginning with 2014 data.

## January 2018: 2015 Data Release Version

- Some values in Tables E20, E21, and E22 were revised to correct errors in calculating the rate of return for certain plan types and to correct inconsistencies between values reported in these tables and the Private Pension Plan Bulletin for the given plan year.
- Total Contributions and Total Benefits were recalculated for all 401(k)-type plans in Table E25 from 2000 to 2014.
- The "Changes to Defined Benefit and Defined Contribution Plan Classification" appendix was added to outline changes made to the classification of plans as defined benefit or defined contribution beginning with 2015 data.

#### December 2018: 2016 Data Release Version

• The "Changes to Defined Benefit and Defined Contribution Plan Classification" appendix was updated to reflect changes made to the method for selecting plans for manual review of plan classification.

## August 2019: 2017 Data Release Version

• The "Changes to Plan Entity Type Classification" appendix was added to outline changes made to the methodology for classifying plans by type of entity beginning with 2017 data.

# January 2021: 2018 Data Release Version

• Some values were revised to correct inconsistencies in some statistics from years 1975, 1978, 1979, 1981-1983, 1985, 1986, 1998, 2000-2005 and 2011. These revisions occurred in tables E1-E3, E5, E6, E8-E16.

#### July 2021: 2019 Data Release Version

• The "Form 5500 Filing Patterns and the COVID-19 Public Health Emergency" appendix was added to discuss the impact of the COVID-19 Public Health Emergency on filing patterns for plans included in the 2019 Form 5500 Private Pension Plan Research File.

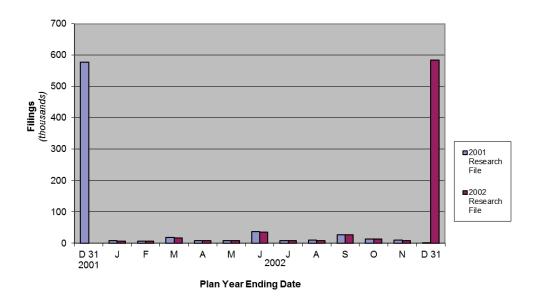

# Appendix B: Timing Definition Changes Originating with the 2002 Form 5500 Private Pension Plan Research File

Beginning with the 2002 Form 5500 Private Pension Plan Research File, the data for a given calendar year reflects filings for plan years that end, rather than begin, in the current calendar year. For example, the 2002 Form 5500 Private Pension Plan Research File and the corresponding 2002 Private Pension Plan Bulletin, contain data for plans whose plan years end between 1/1/2002 and 12/31/2002.

This timing definition change does not affect calendar year filers (i.e., plans beginning January 1 and ending December 31), which make up approximately 80 percent of all filers for a given plan year.

The chart below summarizes the number of plans with plan year end dates of 12/31/2001, dates ending in each month of 2002 (except for the single day 12/31/2002), and then 12/31/2002. The *Form 5500 Private Pension Plan Research Files* generated prior to 2002 contain data corresponding to all but the right-most bar of the chart. Beginning in 2002, the *Form 5500 Private Pension Plan Research Files* and the corresponding *Private Pension Plan Bulletins* contain data corresponding to all but the left-most bar.

Chart 1: Number of Pension Filings, by Plan Year Ending Date Data for 2001 and 2002 Form 5500 Private Pension Plan Research Files

# Appendix C: Changes to Active Participant Counts Originating with the 2005 Form 5500 Private Pension Plan Research File

Prior to 2005, the IRS Form 5500 Schedule T provided information on line 4c(5) allowing the Employee Benefits Security Administration (EBSA) to adjust the number of "active participants" actually reported on line 7g of the main Form 5500<sup>1</sup> to exclude two groups of individuals. These same groups were also excluded from the number of "total participants."

- 1. Individuals eligible to participate in a 401(k)-type plan who had not elected to have their employers make contributions and
- 2. Non-vested former employees who had not (at the time the Form 5500s were submitted) incurred the break in service period established by their plan.

In 2005 the IRS discontinued the Form 5500 Schedule T, necessitating changes in the methodology of defining an "active participant" for the *Form 5500 Private Pension Plan Research Files* and the corresponding *Private Pension Plan Bulletins*. Beginning in 2005, the number of "active participants" is no longer adjusted and instead corresponds directly to the definition of "active participant" provided in the 2005 Form 5500 Instructions which states,<sup>2</sup>

Active participants include any individuals who are currently in employment covered by a plan and who are earning or retaining credited service under a plan. This category includes any individuals who are eligible to elect to have the employer make payments to a Code section 401(k) qualified cash or deferred arrangement. Active participants also include any nonvested individuals who are earning or retaining credited service under a plan. This category does not include (a) nonvested former employees who have incurred the break in service period specified in the plan or (b) former employees who have received a "cash-out" distribution or deemed distribution of their entire nonforfeitable accrued benefit.

EBSA adjusted the reported active participant counts to provide a statistic which more accurately reflects the definition used for research purposes. Although ERISA classifies the above groups of individuals as "active" participants, these groups of individuals are not "active" in the more intuitive sense – i.e., these individuals are not contributing to the pension plan and are not entitled to receive benefits from the plan. The individuals in the first group above are merely qualified to participate in the plan; they do not have account balances and are not contributing or receiving contributions from their employers. The individuals in the second group above were not employed with the plan's sponsor long enough to have qualified to receive benefits under the plan and may only receive benefits if they return to employment with the filing sponsor and remain in service until they vest in their benefits. In a purely economic sense, and for research purposes, individuals in these groups should not be included in the count of active participants.

<sup>&</sup>lt;sup>1</sup> For a more detailed explanation of the methodology see the current Form 5500 Private Pension Plan Research File User Guide available at <a href="https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data">https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data</a>. Also see 29 CFR 2510.3-3(d) for regulatory definition of plan participant.

<sup>&</sup>lt;sup>2</sup> Form 5500 Forms and Instructions are available at <a href="https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and-compliance/reporting-and-filing/form-5500">https://www.dol.gov/agencies/ebsa/employers-and-advisers/plan-administration-and-compliance/reporting-and-filing/form-5500</a>.

To illustrate the effect this definitional change has on the counts of active participants, the following tables and graphs detail the number of participants by types of plans using the previous ("Adjusted Actives") and current ("Reported Actives") definitions for plan years 2001-2004.

Table 1. The Adjustment to Active Participants in Defined Contribution Plans by year, 2001-2004

(numbers in thousands)

		Total Plans		Single	-Employer l	Plans <sup>1</sup>	Multiemployer Plans <sup>2</sup>			
Year	Current Method	Previous Method	Difference	Current Method	Previous Method	Difference	Current Method	Previous Method	Difference	
2001	61,368	51,566	9,802	59,041	49,316	9,725	2,326	2,250	76	
2002	61,790	51,845	9,945	58,831	48,976	9,855	2,959	2,868	91	
2003	60,554	50,793	9,761	57,610	47,944	9,666	2,944	2,849	95	
2004	61,320	51,287	10,033	58,343	48,392	9,951	2,978	2,895	83	

NOTES: Excludes "one-participant plans."

Pension plan statistics are weighted to estimate the impact of delinquent filers. This may result in non-integer plan counts and associated statistics in the underlying data. For more information on the weighted estimates, refer to the "Weights" section in the User Guide of the Form 5500 Private Pension

SOURCE: Form 5500 filings with the U.S. Department of Labor.

# **Appendix D: Weighting Methodology Changes**

As discussed in the Form 5500 Private Pension Plan Research File User Guide, the Form 5500 Private Pension Plan Research File uses weights to adjust the underlying data for missing Form 5500 filings – filings that have either not been received, not been processed, or were never completed.

Weights for the *Private Pension Plan Bulletin* are calculated by defining the universe of plans, stratifying plans by size and type, creating a sample of plans, and then dividing the number of plans in the universe by the number of plans in the sample for each stratum.<sup>3</sup>

The Form 5500 Private Pension Plan Research File is composed of all large plans (generally defined as plans with 100 or more participants), all mega plans (defined as plans with \$2.5 billion or more in assets), and all small plans (defined as plans with fewer than 100 participants). Therefore, weights for all plans are close to one. As discussed in Appendix E, prior to the 2010 Form 5500 Private Pension Plan Research File, a 5 percent sample of small plans was used. Therefore, weights for small plans in those years were close to 20.

During the years in which the Department has published *Form 5500 Private Pension Plan Bulletins*, two methods for determining weights have been in use.

# "Straddling"

For the first method, weights were calculated by tabulating a universe of pension plan filings consisting of all plan filings for the publication year along with all plan filings submitted in either of the prior 2 years and the year following (a "straddling" weighting methodology). For example, the 2004 Form 5500 Private Pension Plan Research File used weights calculated from a universe of all 2004 filings along with all filings submitted in 2005 and either 2002 or 2003.

This universe was divided into five strata:

- mega plans,
- large defined benefit plans,
- large defined contribution plans,
- small defined benefit plans, and
- small defined contribution plans.

Next, the Department compiled the plans to be used as the basis of the *Form 5500 Private Pension Plan Research File*. This sample was stratified in the same manner as the universe. The weight for each stratum was calculated as the number of plans in the universe divided by the number of plans in the sample.

One limitation of this method is that it can only be used when data from the following plan year is available.

<sup>&</sup>lt;sup>3</sup> For a more detailed explanation of the methodology for adding weights to the *Form 5500 Private Pension Plan Research File*, please see the current *Form 5500 Private Pension Plan Research File User Guide* available at <a href="https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data">https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data</a>.

## "Adjusted Nonterminating Plans"

In response to this limitation, the Department considered a weighting methodology based on a universe of the Form 5500 pension plan filings for the prior year that incorporates indications of the plan's intention to terminate (a "nonterminating plans" weighting methodology). The universe using this method consisted of all plans filed for the publication year along with all plans that filed in the prior year and did not indicate termination.

Comparison of the "straddling" weighting methodology with the "nonterminating plans" weighting methodology revealed that the "nonterminating plans" methodology produced weights significantly higher than those produced using the "straddling" methodology.

To adjust for the differences in the methodologies, the Department created a historical adjustment factor using a weighted average of the difference between the two methods for the prior 2 years. To do so, both methods for calculating weights were applied to the two previous *Form 5500 Private Pension Plan Research Files*. For example, for the 2005 Form 5500 Private Pension Plan Research File, weights using both methods were calculated for the 2003 and 2004 Form 5500 Private Pension Plan Research Files.

The Department then calculated adjustment factors to transform the "nonterminating plans" weight to the calculated "straddling" weight for each of the two plan years. An arithmetic average of the adjustment factors for the 2 years for each stratum was then applied to the "nonterminating plans" weight calculated for the publication year, arriving at an "adjusted nonterminating plans" method weight — a close approximation to the "straddle" method weight.

#### 2004 and Earlier Form 5500 Private Pension Plan Research Files

For all Form 5500 Private Pension Plan Research Files up to and including the 2004 publication, the "straddling" weighting methodology was in use. For each of these publication years, the data for the year following was considered complete, and the "straddling" weighting methodology was deemed sufficient.

#### 2005-2008 Form 5500 Private Pension Plan Research Files

Beginning with the 2005 Form 5500 Private Pension Plan Research File, the production date for the Form 5500 Private Pension Plan Research File and Form 5500 Private Pension Plan Bulletin was advanced. As a result of the new publication schedule, the 2006 Form 5500 data were not sufficiently complete to continue using the "straddling" weighting methodology. The same issue was present in publication years 2006, 2007, and 2008. Therefore, for these publication years, the "adjusted nonterminating plans" weighting methodology was used.

#### 2009 Form 5500 Private Pension Plan Research File

For the 2009 Form 5500 Private Pension Plan Research File, the Department returned to using the "straddling" weighting methodology. Effective January 1, 2010, the Department required that all Form 5500 and related Schedules and Attachments be filed electronically through the EFAST2 processing system.

However, prior to January 1, 2010, some employee benefit plans mailed paper Form 5500 filings to the Department. Paper Form 5500 filings were entered into an electronic Form 5500 database using optical

character recognition scanning software. This software sometimes produced inconsistencies between the paper Form 5500 filings and the electronic Form 5500 database.

One result of the transition to total electronic filings was the immediate availability of Form 5500 data. Therefore, the data for the 2010 plan year was complete in sufficient time to use the "straddle" method during the development of the 2009 Form 5500 Private Pension Plan Bulletin.

#### 2010 and Later Form 5500 Private Pension Plan Research File

After publication of the 2009 Form 5500 Private Pension Plan Bulletin, the Department accelerated the publishing schedule of future Form 5500 Private Pension Plan Bulletins (to approximately November 2012 for the 2010 Form 5500 Private Pension Plan Bulletin and to approximately July 2013 for the 2011 Form 5500 Private Pension Plan Bulletin).

Due to this acceleration, data for the year following the publication year is not complete during creation of the *Form 5500 Private Pension Plan Research Files*. Thus, for 2010 and subsequent years, the "adjusted nonterminating plans" weighting methodology is used.

# Appendix E: Sampling Methodology Changes Originating with the 2010 Form 5500 Private Pension Plan Research File

In preparing the *Form 5500 Private Pension Plan Research File*, the Department of Labor's (the Department) Employee Benefits Security Administration (EBSA) has historically utilized a sampling methodology to compile aggregate statistics regarding the composition of the employer-sponsored pension plan universe. Specifically, EBSA created a dataset consisting of information from all Form 5500 pension filings for plans with 100 or more participants and a 5 percent sample of Form 5500 pension filings for plans with fewer than 100 participants. This 5 percent sampling methodology for small pension plans has been revised beginning with the *2010 Form 5500 Private Pension Plan Research File*.

As discussed in detail in the Appendix to the 2009 Form 5500 Private Pension Plan Bulletin, beginning on January 1, 2010, the Department implemented a new electronic filing system whereby filers upload completed Form 5500s electronically using IFILE or EFAST2-approved vendor software. The electronic filing system increased the accuracy of the Form 5500 data that the Department uses to compile aggregate statistics.

The improved accuracy has occurred largely because the Department no longer scans paper filings in order to compile electronic data. Previously, many of the logical errors found in the Form 5500 data were introduced through this scanning process. Editing these errors in data was a time-consuming process even when using only a 5 percent sample of small plans. With this impediment removed, it became possible to incorporate all Form 5500 filings.

Finally, a consideration for historically using a 5 percent sample of small plans was computing power. In previous years, the sample taken was quite large, with more than 100,000 observations and 300 variables. If all plans had been included, this dataset would have increased in size by a factor of seven, making manipulation of the data extremely cumbersome, particularly with older technology. With new and faster technology, a dataset of this size is no longer too large, clearing the way for a complete dataset.

For more information, please see the Form 5500 Private Pension Plan Research File User Guide.<sup>5</sup>

<sup>&</sup>lt;sup>5</sup> Available at <a href="https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data">https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data</a>.

# Appendix F: Changes to Entity Type Classification Originating with the 2012 Form 5500 Private Pension Plan Research File

The Form 5500 allows for filers to identify themselves as multiemployer plans, single-employer plans, multiple-employer plans, or Direct Filing Entities (DFE) in Part IA. The Form 5500-SF allows for filers to identify themselves as single-employer plans, multiple-employer plans, or a one-participant plan in Part IA.

For purposes of the Form 5500 Private Pension Plan Research File, DFEs and one-participant plans are not included. For the summary tables presented in this Bulletin, multiple-employer plans are included in the columns for either single-employer or multiemployer plans. As a general rule, multiple-employer plans that also identify as collectively bargained are included with the multiemployer plans, while those that do not identify as collectively bargained are included with the single-employer plans.

Historically, the number of multiemployer plans has been overstated due to filer error and to data processing issues with the completed Form 5500 filings. As a result, certain data cleaning methods have been employed to reflect the mix of plans more accurately. These methods have included automated edits based on plan name, manual edits based on the plan name, and the judgment of individuals preparing the Form 5500 Private Pension Plan Research File.<sup>6</sup> While these methods have produced reasonable estimates, opportunities to improve are always being explored.

Beginning with the 2012 Form 5500 Private Pension Plan Research File, data from the Pension Benefit Guaranty Corporation (PBGC) is being used to improve the accuracy of the estimates. The Multiemployer Pension Plans and Single-Employer Pension Plans datasets were downloaded from http://www.pbgc.gov. These datasets were matched with the Form 5500 data to be used in the 2012 Form 5500 Private Pension Plan Research File. In the event that PBGC's plan designation disagreed with the Research File's plan designation (which may be based on either the original filing or edited), then the PBGC's designation was used.

The result of using the PBGC's data for the 2012 Form 5500 Private Pension Plan Research File was a shift of 25 plans from multiemployer to single-employer and 24 plans from single-employer to multiemployer. This led to a net shift of approximately 260,000 participants and \$40 billion in assets from multiemployer to single-employer.

<sup>&</sup>lt;sup>6</sup> For the current methodology, see the current Form 5500 Private Pension Plan Research File User Guide available at https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data.

# Appendix G: Changes to Plan Classification and Participation Originating with the 2014 Form 5500 Private Pension Plan Research File

The Private Pension Plan Bulletin and Research File underwent several changes for the 2014 version.

# Addition of Active Participants to the Form 5500-SF

Prior to the 2014 Form 5500-SF, small employee benefit plans filing the Form 5500-SF were not required to report the number of active participants at either the beginning or end of year. The only fields required were the total number of participants at the beginning and end of year in addition to the number of participants with account balances at the end of the year. The 2009-2013 *Research Files* employed a simplifying assumption that all participants reported by Form 5500-SF filers were active participants.

Beginning in 2014, two new fields were added to capture the number of active participants at the beginning and end of year.

These changes bring the information reported on the Form 5500-SF more in line with what is reported on the Form 5500 with one important exception. Participants are classified on the Form 5500 as one of the following: active; retired or separated receiving benefits; retired or separated entitled to future benefits; deceased with beneficiaries receiving or entitled to receive benefits. On the Form 5500-SF, participants can only be classified as active. This means that the difference between total participants reported and the number of active participants reported consists of individuals who are potentially retired or separated receiving benefits, retired or separated entitled to future benefits, or deceased with beneficiaries receiving or entitled to receive benefits.

For the 2014 Research File, the number of retired or separated participants either receiving benefits or entitled to future benefits was imputed for Form 5500-SF filers based on whether the plan is defined benefit or defined contribution. For more information, see the "Participation and the Form 5500-SF" section of the Form 5500 Private Pension Plan Research File User Guide.<sup>7</sup>

## **Identification of 401(k)-Type Plans**

In prior versions of the *Research File*, 401(k)-type plans were identified based on self-reported benefit code 2J, plan name string searches for phrases that would indicate a 401(k) feature, or self-reporting of the benefit code 2K for a code section 401(m) arrangement. Beginning with the 2014 *Research File*, benefit code 2K is no longer used to identify 401(k)-type plans. In 2014 there were 2,703 instances where a plan filed with benefit code 2K but did not self-report code 2J or have a plan name string indicating a 401(k) feature. In contrast, there were 387,097 instances of plans filing with benefit code 2K that could also be identified as 401(k)-type plans via self-reporting of code 2J and/or having a plan name string indicating a 401(k) feature.

<sup>&</sup>lt;sup>7</sup> Available at <a href="https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data">https://www.dol.gov/agencies/ebsa/researchers/data/private-pension-plan-data</a>.

#### **Reclassification of Defined Contribution Plans**

Beginning in 2014, a new classification of defined contribution plans was added to the *Research File* in the form of a new field called DCTYPE. This new classification is readily apparent in Table A1 of the *Private Pension Plan Bulletin*, where plan statistics are shown for the following classes of defined contribution plans: 401(k)-type, 403(b), and other defined contribution.

There are certain instances where plans report both 401(k) and 403(b) benefit codes. These ambiguities were mostly eliminated by performing plan name string searches to determine which of the two benefit codes was most accurate. There was still minimal overlap of approximately 200 plans, and these plans were all classified as 401(k)-type. See the "Pension Benefit Codes" section of the *Form 5500 Private Pension Plan Research File User Guide* for more information.<sup>8</sup>

### Table Additions, Removals, and Renumbering

As a result of the change in the classification of defined contribution plans discussed above, the structure of Tables A1, A1(a), A1(b), B7, D1, and D2 of the Private Pension Plan Bulletin have changed. In addition, Tables D3, D11, and D16 from the 2013 version of the Private Pension Plan Bulletin are obsolete under the new classification and have been removed. To preserve consistency with previous bulletins, additional SAS tabulation programs have been made available for tables that have changed structure or been removed. These programs display 2014 data in structure consistent with the 2013 Private Pension Plan Bulletin versions of the tables.

An additional table, D14, was also added to supplement the new Table A1.

The table at right presents a mapping of table titles and structure that changed from the 2013

2013 PPP	2014 PPP	2014 SAS Tabulation			
<b>Bulletin Table</b>	<b>Bulletin Table</b>	Program(s)			
A1	A1	A1			
AI	AI	A1 (2013 version)			
A1(a)	A1(a)	Ala			
A1(a)	A1(a)	A1a (2013 version)			
A1(b)	A1(b)	A1b			
A1(b)	A1(0)	A1b (2013 version)			
В7	В7	В7			
В/	<b>D</b> /	B7 (2013 version)			
D1	D1	D1			
DI	DI	D1 (2013 version)			
D2	D2	D2			
D2	D2	D2 (2013 version)			
D3	n/a	D3 (2013 version)			
D4-D10	D3-D9	D3-D9			
D11	n/a	D11 (2013 version)			
D12-D15	D10-D13	D10-D13			
D16	n/a	D16 (2013 version)			
n/a	D14	D14			

version to the 2014 version of the *Private Pension Plan Bulletin*. Where more than one SAS tabulation program is listed, the program with "(2013 version)" in the title is based on the pre-2014 defined contribution plan classification.

In addition to these changes, Tables E5-E26 were renumbered to Tables E4-E25.

# Appendix H: Changes to Defined Benefit and Defined Contribution Plan Classification Originating with the 2015 Form 5500 Private Pension Plan Research File

Prior to the 2015 Private Pension Plan Bulletin, plans were classified as either defined benefit or defined contribution based on a review of the pension benefit codes and plan name included with each filing. After systematically reviewing this algorithm and its results, the methodology for classifying plans as either defined benefit or defined contribution was revised to both better reflect self-reported benefit features and to resolve ambiguities in Form 5500 filings.

In general, plan filings indicating only defined benefit or only defined contribution features are classified accordingly, with one exception discussed below. Some plan filings include *both* defined benefit and defined contribution features, and some plan filings include *neither* defined benefit nor defined contribution features. In these cases, indications of plan type may also be gleaned from other sources, such as the plan name or an attached Schedule SB or MB.

The revised classification methodology includes a detailed review for the five groups of filings discussed below.

- 1. Plan filings with both defined benefit and defined contribution features that filed neither a Schedule SB nor a Schedule MB (with the box checked for Multiemployer Defined Benefit plan).
  - Plans with names that indicate defined benefit features are classified as defined benefit. All remaining plans are determined to be defined contribution. All plans identified as defined benefit and a subset of plans comprising 90% of the total assets held by the group are manually reviewed to confirm the classification.
- 2. Plan filings with both defined benefit and defined contribution features that filed either a Schedule SB or a Schedule MB (with the box checked for Multiemployer Defined Benefit plan).
  - If assets and/or participants reported on the Schedule SB or MB represent less than 50% of total plan assets/participants, the plan is classified as defined contribution. All others are classified as defined benefit. A subset of plans comprising 90% of the total assets held by the group is manually reviewed to confirm the classification.
- 3. Plan filings with only defined contribution features that also filed either a Schedule SB or a Schedule MB (with the box checked for Multiemployer Defined Benefit plan).
  - Plans are classified as defined contribution if the plan name indicates defined contribution *but not* defined benefit features. All other plans are classified as defined benefit. A subset of plans comprising 90% of the total assets held by the group is manually reviewed to confirm the classification.

4. Plan filings with neither defined benefit nor defined contribution features that filed neither a Schedule SB nor a Schedule MB (with the box checked for Multiemployer Defined Benefit plan).

Plans are classified as defined benefit if the plan name indicates defined benefit *but not* defined contribution features. All other plans are classified as defined contribution. A subset of plans comprising 90% of the total assets held by the group is manually reviewed to confirm the classification.

5. Plan filings with neither defined benefit nor defined contribution features that also filed either a Schedule SB or a Schedule MB (with the box checked for Multiemployer Defined Benefit plan).

Plans are classified as defined contribution if the plan name indicates defined *contribution* but not defined benefit features. All other plans are classified as defined benefit. A subset of plans comprising 90% of the total assets held by the group is manually reviewed to confirm the classification.

For more detail, please see the Form 5500 Private Pension Plan Research File User Guide.9

<sup>9</sup> Ibid.

# Appendix I: Changes to Plan Entity Type Classification Originating with the 2017 Form 5500 Private Pension Plan Research File

Form 5500 and Form 5500-SF filers identify the type of plan entity for which they are submitting information from checkboxes on Part I, Line A of either form. Form 5500 filers select from the following options: "a multiemployer plan," "a single-employer plan," "a multiple-employer plan," and "a DFE." Because multiemployer plans and DFEs cannot use the Form 5500-SF to satisfy annual reporting obligations, Form 5500-SF filers identify plan entity type as either "a single-employer plan" or "a multiple-employer plan." <sup>10</sup>

Prior to the 2017 Form 5500 Private Pension Plan Research File, all plans were classified as either single employer or multiemployer. Filers that indicated being a multiple-employer plan on Part I, Line A were classified as either single employer or, in the case of collectively bargained plans, multiemployer.

Beginning with the 2017 Form 5500 Private Pension Plan Research File, multiple-employer plans are now recognized as a distinct plan entity type category.

## Plan Entity Type Edits: Review of Plan/Sponsor Name and Industry Code

EBSA also historically subjected plans to additional review to determine instances in which plans may have incorrectly self-reported the plan entity type. First, each filing for a multiemployer plan was subjected to the following logical edits based on plan name, sponsor name, and industry code.

The following flags were created:

- **INC** All plans with INC., INC, INCORPORATED, COMPANY, CORP., CORPORATION, CO., LLC, or LTD in the **plan** name *or* **sponsor** name were flagged.
- **BOARD** All plans with BOARD, TRUSTEES, or COUNCIL in the **sponsor** name were flagged.

Plans reporting as multiemployer were reclassified as single employer if the plan was flagged as INC but was not flagged as BOARD.

Plans reporting as multiemployer were also reclassified as single employer if the business code reported corresponded to any of the following:

- o Offices of physicians or dentists (621111, 621210)
- o Real estate (531000 531999)
- o Legal services (541000 541199)

Beginning with the 2017 Form 5500 Private Pension Plan Research File, plans that identify as multiemployer and report one of the business codes listed above are instead reclassified as multiple-employer plans.<sup>11</sup>

<sup>&</sup>lt;sup>10</sup> Part I, Line A of the Form 5500-SF also includes checkboxes for "a one-participant plan" and "a foreign plan." However, these plans are not required to file a report under Title I of ERISA. Instead, these plans may elect to file a Form 5500-SF rather than filing a Form 5500-EZ to meet reporting requirements for the Internal Revenue Service. These plans are excluded from the *Form 5500 Private Pension Plan Research File*.

<sup>11</sup> There were six plans which were reclassified from multiemployer to multiple-employer in the 2017 Form 5500 Private Pension Plan Research File.

For plans reporting as multiemployer that were not reclassified as multiple-employer based on business code, plan and sponsor names continue to be reviewed for the flags listed above: plans flagged as INC but not BOARD are reclassified as single employer.<sup>12</sup>

# Plan Entity Type Edits: Comparison to Lists of Defined Benefit Plans Paying Premiums to PBGC

Historically, plan entity type of defined benefit pension plans was also verified against lists of single employer and multiemployer defined benefit plans that pay premiums to the Pension Benefit Guaranty Corporation (PBGC). For instances where the plan entity type from the Form 5500 did not match the list on which PBGC included the plan, the filing and its attachments were manually reviewed. For these filings, plan entity type was edited to be consistent with the PBGC list as long as the description of the plan in the attachments did not contradict this designation. See Appendix F for more discussion.

While multiple-employer plans are recognized as a distinct plan entity type category beginning with the 2017 Form 5500 Private Pension Plan Research File, they would not be distinguished as such on lists of plans paying premiums to PBGC. For the 2017 Form 5500 Private Pension Plan Research File and subsequent publications, multiple-employer defined benefit plans are compared against lists of plans paying premiums to PBGC; however, the plan entity type will only be reviewed if the plan appears on the PBGC list for multiemployer plans.<sup>13</sup> For single and multiemployer plans, edits for consistency with the PBGC lists remain the same as in prior publications.

12 There were 56 plans which were reclassified from multiemployer to single employer in the 2017 Form 5500 Private Pension Plan Research File.

<sup>&</sup>lt;sup>13</sup> In other words, defined benefit plans reporting as multiple-employer that appear on the PBGC list for *single employer* plans will continue to be classified as *multiple-employer*.

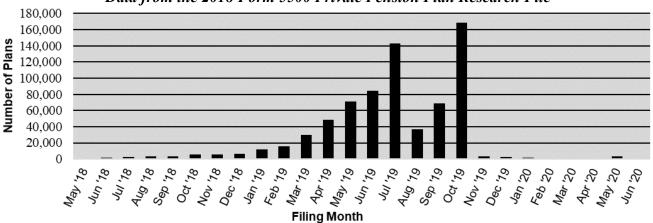

# **Appendix J: Form 5500 Filing Patterns and the COVID-19 Public Health Emergency**

Private pension plans that are required to file the Form 5500 must file by the last day of the 7<sup>th</sup> calendar month after the end of the plan year. <sup>14</sup> Plans may be granted an extension, but the due date may not be extended beyond a total of 9½ months past the end of the plan year. <sup>15</sup> Most filing plans operate on a calendar year basis with plan ending date on December 31, which leads to the majority of filings occurring between June and October of the following year. The figures below illustrate this pattern for 2018.

# Proportion of Plan Filings by Plan Year Ending Date Data from the 2018 Form 5500 Private Pension Plan Research File

Plan Year End	Jan '18	Feb '18	Mar '18	Apr '18		Jun '18			Sep '18	Oct '18		Dec '18
Percent of Pension Plans	0.4%	0.4%	0.9%	0.5%	0.5%	2.6%	0.5%	0.6%	1.6%	0.7%	0.6%	90.7%

# Number of Plans by Filing Month, Data from the 2018 Form 5500 Private Pension Plan Research File

As a result of the COVID-19 public health emergency (PHE), the IRS and DOL offered a relief package that postponed filing deadlines for plans with due dates between April 1, 2020 and July 14, 2020 to a new due date of July 15, 2020. In order to address concerns that the PHE could result in filing delays that potentially could impact the statistics presented in the 2019 Private Pension Plan Bulletin, EBSA compared 2019 filing counts with historical filing patterns from prior years. Findings from this analysis indicated some minor filing delays—particularly during the period in which some plans were granted filing relief—but did not suggest that these delays had a material impact on the statistics presented in the 2019 Private Pension Plan Bulletin.

<sup>&</sup>lt;sup>14</sup> Instructions for the Form 5500, U.S. Department of Labor (2019), <a href="https://www.dol.gov/sites/dolgov/files/EBSA/employers-and-advisers/plan-administration-and-compliance/reporting-and-filing/form-5500/2019-instructions.pdf">https://www.dol.gov/sites/dolgov/files/EBSA/employers-and-advisers/plan-administration-and-compliance/reporting-and-filing/form-5500/2019-instructions.pdf</a>.

<sup>15</sup> Id

<sup>&</sup>lt;sup>16</sup> See Treasury Regulations under Internal Revenue Code § 7508A and Section 8 of Rev. Proc. 2018-58, 2018-50 I.R.B. 990 and "IRS Notice 2020-23 Update to Notice 2020-18, Additional Relief for Taxpayers Affected by Ongoing Coronavirus Disease 2019 Pandemic" at <a href="https://www.irs.gov/pub/irs-drop/n-20-23.pdf">https://www.irs.gov/pub/irs-drop/n-20-23.pdf</a>.

#### **Analysis of Actual vs. Expected Filing Patterns**

EBSA used raw Form 5500 data from prior years to estimate what the filing patterns for 2019 would have been in the absence of the PHE. It calculated "development factors"—the percent growth rate in the cumulative filings received by month—for filings dating back to 2010. The development factors were averaged over several years, then used to estimate an expected filing pattern for private pension plans filing the Form 5500. EBSA applied the average development factors to approximate the expected number of filings that would be received by month in the absence of the PHE. This expected filing pattern was then compared with the actual filing pattern for plans included in the 2019 Form 5500 Private Pension Research File.

Table 2 shows the comparison of actual data from the 2019 Form 5500 Private Pension Plan Research File to the average expected filing pattern based on data from the previous three Form 5500 Private Pension Plan Research Files (2016-2018). 19 The rate of filing was lower than expected in March 2020 and then again in May and June as some plans received filing relief, before rebounding after the end of the relief period. As in prior years, the majority of filings were received between July and October, with the rate of filing dropping considerably thereafter. While some minor filing delays appear to have occurred at the onset of the PHE, this analysis suggests that the cumulative number of filings included in the 2019 Form 5500 Private Pension Plan Research File is not significantly different from what would be expected in a typical year. Ultimately, EBSA did not find evidence that the PHE caused major filing delays that materially impacted the statistics presented in 2019 Private Pension Plan Bulletin.

Table 2. Actual vs. Expected Cumulative Filings Received with Plan Year End in 2019, by Month

			m 2017, Dy	
Cumulative Filings Received	Actual <sup>17</sup>	Expected (3-year Average) <sup>18</sup>	Difference	% Diff.
Jan '19	32	32	1	_
Feb '19	119	119	-	_
Mar '19	358	358	_	_
•••	•••	•••	•••	•••
Jan '20	40,288	40,288		
Feb '20	55,532	55,532	_	_
Mar '20	76,463	82,231	-5,768	-7.0%
Apr '20	123,979	124,155	-176	-0.1%
May '20	182,463	191,745	-9,282	-4.8%
Jun '20	277,024	278,334	-1,310	-0.5%
Jul '20	422,888	425,204	-2,316	-0.5%
Aug '20	462,039	462,560	-521	-0.1%
Sep '20	534,592	527,286	7,306	1.4%
Oct '20	704,751	686,779	17,972	2.6%
Nov '20	708,234	689,728	18,506	2.7%
Dec '20	711,865	691,988	19,877	2.9%
Jan '21	714,138	695,035	19,103	2.7%
Feb '21	715,809	696,147	19,662	2.8%
Mar '21	717,430	697,033	20,397	2.9%
Apr '21	718,719	697,961	20,758	3.0%
May '21	719,784	699,584	20,200	2.9%
Jun '21	721,282	700,687	20,595	2.9%

<sup>11</sup> 

<sup>&</sup>lt;sup>17</sup> The actual cumulative filing count in Table 2 for June 2021 differs from the total number of plans reported in the *2019 Private Pension Plan Bulletin* because statistics in the *2019 Private Pension Plan Bulletin* are weighted to estimate the impact of delinquent filers.

<sup>&</sup>lt;sup>18</sup> The expected number of filings, estimated using non-PHE filing patterns, was first calculated at the onset of the PHE in the United States, or March 2020. Months prior to March 2020 in this column reflect the actual number of filings received.

<sup>&</sup>lt;sup>19</sup> EBSA also compared against 5-year (2014-2018) and 9-year (2010-2018) average expected filing patterns, and the results were similar.

# Appendix K: Changes to the Process Used for Developing Research File Data Originating with the 2023 Form 5500 Private Pension Plan Research File

The Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act) directed DOL and the IRS to develop a consolidated annual reporting option for certain groups of defined contribution plans. In response, DOL began offering the option for filing a consolidated Form 5500 for a new class of direct filing entity (DFE) called a defined contribution group reporting arrangement (DCG). Under this new reporting regime, plans participating in a DCG are not required to file their own Form 5500. Instead, the DCG in which the plan is participating submits a consolidated Form 5500 that includes attached separate Schedule DCGs (Individual Plan Information) for each participating plan. DCG's generally follow the Form 5500 filing instructions for a Large Pension Plan, unless otherwise noted.

The DOL's rule at 29 CFR 2520.104-51 provides that in order to qualify as a DCG, all participating plans must be individual account plans or defined contribution plans and

- 1. Have the same plan administrator.
- 2. Have the same named fiduciaries.
- 3. Have the same trustee(s).
- 4. Have plan years beginning on the same date.
- 5. Provide the same investments or investment options to all participants and beneficiaries, though certain brokerage window arrangements may qualify as a common investment.
- 6. Each plan must either be audited by an Independent Qualified Public Accountant

- (IQPA) or satisfy the waiver conditions for an IQPA report under 29 CFR 2520.104-46.
- 7. Not hold any employer securities; except this does not prohibit investments in any employer's publicly traded securities within one of the common investments or investment options.
- 8. Not be a multiple-employer plan (including a pooled employer plan) or a multiemployer plan.

As a result of this new reporting option, the number of Form 5500 and Form 5500-SF filings can no longer be used to count all plans, as a single Form 5500 can be filed for a DCG in which numerous plans participate. This has necessitated a change in the development of the Form 5500 Research File, on which the Form 5500 Bulletin relies. Specifically, each Schedule DCG associated with the Form 5500 filed by a DCG is treated as its own plan, and its values are converted to Form 5500, Form 5500-SF, Schedule H, or Schedule I counterparts, as necessary to create a single dataset with one observation for each plan.

Under this approach, existing edits and error checks, de-duplication efforts, and weighting can be performed as they historically have been. For 2023, the first year of DCG reporting, eight DCGs filed with 158 associated Schedules DCG. While each of these filings included at least one Schedule DCG, three of them did not indicate that they were themselves a DCG in Part I of the Form 5500. Nevertheless, data is included from all filings that attached at least one Schedule DCG. The Schedules DCG from these eight filings account for 100 DC plans that have more than one participant.
