

United States Department of Labor Employee Benefits Security Administration Understanding Your Fiduciary Responsibilities under ERISA

Strong fiduciary oversight and protecting workers' benefits is one of the highest priorities of the U.S. Department of Labor. However, we recognize that understanding and complying with Employee Retirement Income Security Act (ERISA) can be challenging for any employer, but especially so for small and medium sized employers with limited time, resources and/or access to professional assistance.

This webinar on "Understanding Your Fiduciary Responsibilities under ERISA" is being offered for employers and plan administrators. The Employee Benefits Security Administration (EBSA) New York Regional Office will present an introduction to ERISA and cover some of the basics of retirement administration.

Benefits Advisors will be available to address your specific questions. The webinar runs around an hour.
