

National Dislocated Worker Grant (DWG) Summary

Project Type	Reemployment System Integration (RSI)	
State	Montana	
Period of Performance	October 1, 2016 - September 30, 2018	
Grant Award Amount	\$ 1,081,801	
Core Project Elements		✓ Where Applicable
	Common registration and case management across at least the DW, ES, and UI programs	
	Implementation of robust on-line service delivery hubs that integrate information and on-line services across at least the DW, ES, and the UI programs	
	Data integration strategies that support the ability of front-line staff, including career counselors, to better connect dislocated workers to the services they need to get jobs in demand and expand the capacity to provide career counseling to more customers	
Alternate Options for States	For states with existing integrated systems, the proposal includes enhancing existing system	✓
Workforce Connect		Yes or No
	Plan to use	Yes
	Plan to investigate	
Project Description	<p>Montana has begun developing an integrated customer registration system using funds from an earlier grant; under this RSI-DWG grant, Montana plans to expand and enhance the existing WorkForce Connect portal. The expansion and enhancement will increase integration and interconnectivity for the intake, registration and customer management requirements of the partner programs. The WorkForce Connect portal that Montana has already implemented currently provides for a common registration between Employment Services, including Dislocated Worker, and Unemployment Insurance. Over the course of the RSI-DWG project, Montana will expand the existing system to include additional partner programs and ensure that more Montana job seekers are able to benefit from</p>	

	this technology.
