Alternate Options for States	For states with existing integrated systems, the proposal includes enhancing existing system	✓
Workforce Connect	Yes or No	
	Plan to use	
	Plan to investigate	Yes
Project Description	<p>North Carolina previously integrated the WIOA Titles I and III (Wagner Peyser) and Trade Adjustment Assistance data systems into a single online system, called NCWorks, managed by the Division of Workforce Solutions. The UI Information Technology system is separate from NCWorks and is administered by the NC Department of Commerce, Division of Employment Security. North Carolina is interested in creating a seamless experience for customers by connecting these and other systems through interfaces, a common login, and to make other enhancements that will help job seekers find employment and allow the unemployed to return to work more quickly. The RSI-DWG project will allow North Carolina to achieve the following three goals:</p>	

	<ol style="list-style-type: none">1. Implement a single sign on for all workforce programs2. Implement an automated process to capture UI job search requirements.3. Streamline Labor Market Information to provide better career decisions for dislocated workers
