

National Dislocated Worker Grant (DWG) Summary

Project Type	Reemployment System Integration (RSI)	
State	Ohio	
Period of Performance	October 1, 2016 - September 30, 2018	
Grant Award Amount	\$ 1,100,000	
Core Project Elements		✓ Where Applicable
	Common registration and case management across at least the DW, ES, and UI programs	
	Implementation of robust on-line service delivery hubs that integrate information and on-line services across at least the DW, ES, and the UI programs	
	Data integration strategies that support the ability of front-line staff, including career counselors, to better connect dislocated workers to the services they need to get jobs in demand and expand the capacity to provide career counseling to more customers	✓
Alternate Options for States	For states with existing integrated systems, the proposal includes enhancing existing system	✓
Workforce Connect		Yes or No
	Plan to use	
	Plan to investigate	
Project Description	Ohio's RSI-DWG project involves the enhancement of existing case management and labor exchange systems with features that will support the ability of front-line staff to better connect dislocated workers, Wagner-Peyser employment services (ES) participants, and Unemployment Insurance (UI) claimants with the services needed to secure full-time in-demand jobs. Specifically, the Workforce Case Management System (WCMS) will be interfaced with a mobile web application that instantly captures demographic information and automatically registers workers in WCMS. The OhioMeansJobs (OMJ) labor exchange system will be enhanced with scheduling tools that will allow Unemployment Insurance (UI) claimants and other America's	

	Job Center (AJC) customers to schedule their own appointments with case managers.
