Period of Performance	Up to Amount
2/1/2022-3/31/2024	\$8,905,050*
	
Planned Participants	Target Population
222	Dislocated Workers
	

*The grant approval threshold of \$8,905,050 does not represent a current obligation of funds beyond the immediate award of \$2,968,350.

California Wildfires 2021

GRANT NUMBER: DW-38026-22-60-A-6

Counties of Lassen, Nevada, Placer, Plumas, Tehama, Trinity

Qualifying Events

Between July 2021 and October 2021, multiple wildfires in six northern California counties burned more than 1.4 million acres, a land area larger than the state of Delaware. The wildfires destroyed thousands of structures and burned huge sections of Lassen National Forest, Lassen National Park, Plumas National Forest, and Trinity National Forest. The disaster devastated the lumber industry across northern California, exacerbating ongoing national lumber shortages and making it harder to rebuild following the disaster events.

Proposal Summary

California's request for funding will help to create disaster-relief employment, including debris and damage cleanup resulting from the wildfires, as well as provide for employment and training services for eligible individuals in the affected areas.

Project Description

The funds will provide disaster-relief employment for eligible individuals to assist with cleanup and recovery activities in response to the wildfires that occurred in 2021, as well as provide for employment and training services for eligible individuals in the affected areas.
