

CAREER Dislocated Worker Grants

Comprehensive and Accessible Reemployment through Equitable Employment Recovery DWGs

AZ, Pima County

Pima County

Grant Number: DW-37005-21-60-A-4

Project Overview

The Community and Workforce Development Department (CWD) CAREER Client Management System (CMS) project will reach and engage new segments of Pima County's population to move the workforce toward family-sustaining wage employment opportunities through multiple outcomes. The new CMS platform will introduce more Dislocated Workers and more overall Pima County residents to the full suite of Pima County One-Stop programs and services, reaching beyond the limits of traditional outreach methods and outdated CMS.

Project Description

Create a digital client management system to provide virtual and equitable access to Pima County's entire program and services portfolio, which will connect clients to public workforce development (career planning, job placement, IEP development), supportive services (community services, housing resources and programs), GED/HSE classes, business development resources, and state resources.

Project Goals

The goal of the program is to help reemploy dislocated workers most affected by the economic and employment fallout from the COVID-19 pandemic, in particular those from historically marginalized communities or groups, and those who have been unemployed for an extended period of time or who have exhausted Unemployment Insurance (UI) or other COVID-19-related UI programs.
