### Project Description

The program plans to increase digital service delivery and decrease language and transportation barriers by developing or upgrading accessible on-line systems, platforms, and data structures for access to services, job search, and career guidance.

### Project Goals

The goal of the program is to help reemploy dislocated workers most affected by the economic and employment fallout from the COVID-19 pandemic, in particular those from historically marginalized communities or groups, and those who have been unemployed for an extended period of time or who have exhausted Unemployment Insurance (UI) or other COVID-19-related UI programs.
