

# National Dislocated Worker Grants (DWG) Disaster Recovery

## Nebraska

## Severe Storms 2019

GRANT NUMBER: **EM-33721-19-60-A-31**

*76 counties throughout the state*

[View Official FEMA Declaration](#)

### Qualifying Events

A major storm system hit Nebraska between March 9 - 14, 2019, bringing a deluge of rain, warmer temperatures, and melting snow, resulting in historic flooding. Multiple communities were forced to evacuate and record-setting water levels caused significant losses to highways, roads and bridges.

### Proposal Summary

The Nebraska Department of Labor submitted an application requesting \$2,000,000 in Disaster Recovery DWG funding. The Department approved an initial increment of \$800,000. Nebraska received a major disaster declaration from the Federal Emergency Management Agency (FEMA), under *Nebraska Severe Winter Storm, Straight-line Winds, and Flooding* (DR-4420).

### Project Description

The purpose of the proposed project is to create disaster-relief employment for eligible individuals to assist with clean-up and recovery activities in response to the March 2019 storms impacting three quarters of the State. Additional time and the continued evaluation of the storm and flooding damage may lead to revising the project's size and scope.

Period of Performance	Approved Amount
6/1/2019-6/30/2021	\$2,000,000*
	
Planned Participants	Target Population
100	Dislocated Workers
	

\*The grant approval threshold may not represent the current obligation of funds.
