Local Workforce Development Boards *Statewide*

Grant Number: DW-39220-22-60-A-18

Project Overview

Employment and training activities will include enhanced career services and occupational training based on proven Integrated Education and Training models and workforce education programming that connects businesses and workers to adult education, high-quality training, and certification in high-demand occupations and industries.

Project Description

Through this DWG, Indiana will utilize advanced data analytics, community outreach, and stakeholder partnerships to define an outreach strategy to connect with and engage the target population in education and training activities and connect them to employers willing to invest in upskilling of talent through high-quality work-based learning models. Business engagement activities will focus on the state's critical economic sectors, particularly renewable energy, electric vehicle technologies, and semiconductor production. They will include events to surface employer needs and ensure alignment of business services and deliver resources and best practices for attracting, hiring, and retaining immigrant, refugee, and other underserved populations.

Project Industries

Infrastructure, Care Economy, Climate and Environment
