

# National Dislocated Worker Grants (DWG) Disaster Recovery

## West Virginia

[View Official FEMA Declaration](#)

<p>Period of Performance</p> <p>10/1/2018 - 9/30/2019</p> 	<p>Up to Amount</p> <p>\$2,500,000*</p> 
<p>Planned Participants</p> <p>140</p> 	<p>Target Population</p> <p>Dislocated Workers</p> 

\*The grant approval threshold of \$2,500,000 does not represent a current obligation of funds beyond the immediate award of \$833,325.

### Severe Storms

### Ohio Valley Region 2018

GRANT NUMBER: EM-32538-18-60-A-54

*Counties of: Brooke, Cabell, Calhoun, Doddridge, Hancock, Harrison, Lincoln, Logan, Marshall, Mason, Monongalia, Ohio, Pleasants, Ritchie, Taylor, Tyler, Wayne, Wetzel, Wirt and Wood.*

### Qualifying Events

Severe storms occurred February 14 through February 20, 2018, bringing heavy rainfall, flooding and wind damage to 21 affected counties. Storm recovery work includes clearing downed trees and removing debris from streams, as well as clean-up activities resulting from floods, landslides, and mudslides.

### Proposal Summary

The purpose of the project is to create disaster relief employment for eligible individuals to assist with clean-up resulting from severe storms impacting the Ohio Valley. Federal funding will enable the state to assist with clean-up efforts in 21 counties declared eligible for FEMA's public assistance program.

### Project Description

The State will use the initial funding of \$833,325 to create approximately 140 disaster relief positions to assist with clean-up activities in the 21 counties affected.
