## INTRODUCTION AND PURPOSE

The Minnesota Department of Employment and Economic Development (DEED) and the Governor's Workforce Development Board (GWDB) present Minnesota's annual Workforce Innovation and Opportunity Act (WIOA) report for Program Year 2021 (PY21). DEED is the Minnesota state agency responsible for administering the United States Department of Labor (USDOL) WIOA Title I and III programs. In addition, DEED oversees other workforce development programs and funds, including Vocational Rehabilitation Services (VRS), State Services for the Blind (SSB), and Unemployment Insurance (UI). The GWDB is an employer-led policy board that advises the Governor on the Minnesota workforce system and is mandated and funded by WIOA and further defined by Minn. Stat. Sect. 116L.665.

WIOA program profiles include descriptions of purposes, activities, services, customers served, performance results and specific improvement strategies. It is important to note the COVID-19 Pandemic undoubtedly impacted operations and performance of the programs. A description of Title II and IV activities is in Appendix A. Local performance tables are in Appendix B and Appendix Y. Results of the state performance measures can be found in Appendix Z.

This report fulfills TEGL 05-18 requirements to submit to the USDOL Secretary an annual report on the performance progress for WIOA Title I programs (Adult, Dislocated Worker, and Youth) and WIOA Title III Wagner-Peyser, Employment Service, including but not limited to the following subjects:

1. Progress toward meeting the state's strategic vision and goals, as described in the Minnesota State Combined Plan;
2. Performance data on the core common performance measures, including effectiveness serving employers;
3. Information on evaluation and improvement activities, including customer satisfaction;
4. Information on participants in the workforce development system;
5. Information on workforce activities provided by state funds; and
6. Information on each waiver the state has had in place for at least one program year.

The participant data provided in this report are generated by the Participant Individual Record Layout (PIRL) formatted files, which have been uploaded into the Workforce Integrated Performance System (WIPS). Minnesota submitted the required data to USDOL on time. Throughout the report, the terms "CareerForce location" and "career seeker" are used to refer to Minnesota's American Job Centers and potential clients, respectively.

## MINNESOTA'S EVALUATION SYSTEM

### Wagner Peyser

The Job Service team gauges performance of the Wagner Peyser Act funded Employment Service (ES) Program throughout the year through close collaboration with DEED's Performance and Technical Management (PTM) team. PTM assembles quarterly and annual PIRL reports and submits them to USDOL. The Employment Services (ES) team routinely runs reports to evaluate the impact of the ES Program. Reports include demographic data on the number of customers reached; types of service delivered; co-enrollment information that is used to monitor connections to other WIOA programs and Unemployment Insurance; and other data points used to evaluate the effectiveness of the delivery of services.

Additionally, PTM provides ES with data on the services offered to different demographic populations. Recent data reports compared ES with the Social Vulnerability Index (SVI). The SVI ranks each zip code on 15 social

factors, including poverty, lack of vehicle access, and crowded housing, and groups them into four related themes. The SVI assigns quartiles of vulnerability from most vulnerable (Q1) to least (Q4).

Minnesota uses MinnesotaWorks.net, the state's labor exchange, SharePoint, and Microsoft Excel as tools to track the administration of ES. MinnesotaWorks.Net provides the data for Minnesota's reportable individuals under WIOA. In Minnesota, all WIOA titles require customers to register with MinnesotaWorks.Net to ensure reportable individual activities are tracked.

The ES program takes the reportable individual tracking one step further by tracking the specific basic career services delivered in MinnesotaWorks.Net. Typically, this tracking is broken down into two types of services:

- Group activities, such as: workshops, job clubs, or hiring events; and
- Individual assistance sessions, such as: one-on-one appointments, career exploration counseling, mock interviews; resume reviews, or others.

The ES Program Coordinator facilitates referrals and outreach calls coordinated with the UI program through data sharing via Microsoft Forms, Power Automate, SharePoint and Teams. This additional component allows the ES Program Coordinator to monitor delivery and recording of services. The ES Program Coordinator meets regularly with ES staff to ensure they are complying with program guidelines.

MinnesotaWorks.Net is available to all WIOA partners to track and monitor delivery of reportable individuals as well as basic career services. The tool offers a method to promote group activities via registration in the labor exchange, and track attendance for those activities. Through integration with CareerForceMN.com, the group activities are promoted to all Minnesotans. The ES program staff can schedule, promote, and record attendance for these services via MinnesotaWorks.Net. ES services are codified as Wagner Peyser/Title III services in the PIRL.

Minnesota uses Objectives and Key Results (OKRs) to goal set and guide strategic initiatives. Every year, OKRs are established, and all DEED teams strive to achieve key results with the intent to improve program performance. The key results statements are evaluated quarterly and are made public.

One OKR that applies directly to the ES Program for 2021-2022 includes the following:

1. Build a new customer experience in the CareerForce system, rooted in a proactive approach to broadening outreach and delivery of services to the most in need of the CareerForce Services.

Key Results:

- a. Achieve a full operational status with a hybrid model of service – including in-person at CareerForce Centers, virtual services, and robust in-community services – in all 6 CareerForce regions, with local partnership models in place in all 16 WIOA local workforce development areas.
- b. Launch a new labor exchange platform with responsive design and dynamic matching capabilities.
- c. Identify and perform strong referrals and interventions for 60% of the unattached UI applicants deemed likely to benefit from more intensive Job Service job counseling.
- d. Execute our Good Jobs Now campaign to connect career seekers with opportunity and making over 300,000 referrals to job opportunities.
- e. Attain a level of 85% of ES customers indicating they are somewhat or very confident that the services they received from CareerForce will help the customer find a job.
- f. Ensure 10% of ES interventions are recorded as career counseling services.

The outcomes of these efforts are disseminated to internal and external partners via regularly scheduled outreach and meetings, such as: meetings of the Minnesota Association of Workforce Boards (MAWB); GWDB; press releases; social media posts; and blog posts.

Completed reports for the ES Program are posted in a variety of public places. One of those places includes the Annual Program Summaries, available at <https://mn.gov/deed/about/what-we-do/agency-results/program-summaries/>. A finalized report is available on the WIOA page at: <https://mn.gov/deed/about/what-we-do/objectives-plans/wioa.jsp>. Additionally, the CareerForce Division created an annual report for ES and Veterans Services programs. This report was shared with on the About Us section of CareerForceMN.com at: <https://www.careerforcemn.com/about-us>.

Wagner Peyser's ES program cooperates with federal evaluations, monitoring visits and reports by providing the data necessary to review reportable individual performance metrics for the entire system, collected in Minnesota's labor exchange system. Furthermore, the program cooperates through participation in evaluations that intersect with the ES Program or coordination.

ES leadership meets regularly with ES staff to receive and provide input on the best ways to operate and improve the CareerForce system. These meetings provide an opportunity for open communication, brainstorming and collaboration with the Wagner Peyser team, and leads to improved service delivery.

## **Dislocated Worker and Adult**

All Title I Adult and Dislocated Worker programs are required to participate in the State of Minnesota's Uniform Outcome Report Card. This mandated report includes several measures that the U.S Department of Labor (DOL) does not. Including: Median wage change by previous employment status, Retention in Q3 and Q8 after exit and Occupation of employment in Q1, Q3, Q8

Minnesota evaluates WIOA programs under 20 CFR § 682.200. For Title I Adult and Dislocated Worker Programs, the following evaluations have been or will be conducted:

1. Net Impact Analysis. This uses a quasi-experimental design to determine if participants in Title I programs have statistically significant impacts on employment, wages, and benefit usage compared to a matched control group. (Completed in 2017).
2. Social Vulnerability Study (Phase I completed). This study uses the Center for Disease Control's social vulnerability index to assess if Title I programs are serving Minnesotans from the most marginalized parts of the state. This report can be found at <https://public.tableau.com/app/profile/magda.olson/viz/DWandWIOASVI/DemographicProfile?publish=yes>
3. Family Sustaining Wage Calculation and Attainment study (In progress). This study has two parts. The first involves working with the LMI team to calculate individual level family sustaining wage thresholds of participants based on their family size and location. The second part involves analyzing when participants exit a program and if they attain a family sustaining wage within a year after exit. This study helps programs better understand if participants can support themselves post-exit. (Phase I soon to be complete).
4. Study of changing populations (In progress). This study includes partnering with the LMI team to see if programs are properly set up to serve Minnesotans most impacted by the COVID-19 Pandemic. The study has two main research questions:
  - a. Have participants in Title I adult programs changed since COVID-19 Pandemic?
  - b. Are current Title I adult participants disproportionately impacted by COVID-19 Pandemic?

5. Study on barriers ((In progress). Building off the datasets created for the WIOA local area statistical adjustment model, this study hopes to answer the following research question:
  - a. What is the biggest negative determinant of placement?

Continuous Quality Improvement strategies are on-going and follow the Plan-Do-Study-Act (PDSA) cycle as a “trial-and-learning” method to test changes quickly for the Dislocated Worker and Adult programs. These methods are especially important when new or updated guidance is released by the U.S. Department of Labor. As new guidance is received, multiple protocols, including database and data entry procedures, need to be evaluated to determine the actual impacts of the change. This may include, applying changes to multiple programs, updating policy, remapping the state’s case management system (Workforce One), updating case management desk guides, and scheduling training sessions to inform LWDA’s.

Planning for USDOL monitoring visits begin with coordinating with local areas to inform of the planned visit and to prepare files for the monitoring visit. DEED is already unified with local areas via Workforce One. Minnesota responds to USDOL monitoring reports in collaboration with LWDA’s.

## Youth

Minnesota contracts with FutureWorks to provide State and LWDA-level managers with detailed, on-demand performance reports that are updated monthly via a secure website. The available analytical tools use PIRL data to identify reporting and/or possible data entry issues and provide detailed information to evaluate performance.

## WIOA COMBINED STATE PLAN

The Workforce Innovation and Opportunity Act (WIOA) requires each state have a state workforce development board to support policy development, provide for system oversight, serve as a tool for alignment across agencies and programs, and make recommendations or advise the governor and other state leaders on ways to strengthen the public workforce system. Minnesota’s governor appoints members to serve three-year terms on the GWDB – paying special attention to priority industry sectors as well as the racial, geographic, and gender diversity of the board’s members. A majority of voting members are from private sector employers, while other members include representatives of labor unions, community-based organizations, state agencies, education, state and local elected officials, and other workforce stakeholders.

Between WIOA and state statutes, the most explicit of the GWDB’s required duties are:

- Overseeing the development and submission of Minnesota’s four-year WIOA State Plan (and required two-year revisions to the Plan). Per WIOA, the four-year State Plan serves as the governor’s strategic plan for the state’s public workforce development system and has been developed in alignment with the administration’s other strategic planning efforts. The current Modified WIOA State Plan is available here: [https://mn.gov/deed/assets/wioa-state-plan\\_tcm1045-443536.pdf](https://mn.gov/deed/assets/wioa-state-plan_tcm1045-443536.pdf)
- Every two years: developing and submitting a report to the Legislature that provides an overview of “the state of the workforce system”, including significant updates as it relates to policies or programs, with recommendations for ways to improve the public workforce system.

The GWDB’s work is accomplished via its committees, subcommittees, or ad-hoc groups – who utilize the vision, mission, goals, and priority strategies outlined in the WIOA State Plan as a guide for their work.

## **2020-2023 State Plan Vision**

The strategic vision of the One Minnesota WIOA Combined State Plan is a healthy economy, where every Minnesotan has meaningful employment and a family-sustaining wage, and employers can fill jobs in demand.

## **2020-2023 State Plan Goals**

1. Reduce educational, skills and employment disparities based on race, disability, gender, or disconnected youth.
2. Build employer-led industry-sector partnerships that expand the talent pipeline to be inclusive of race, disability, gender, and age to meet industry demands for a skilled workforce.

## **2016-2020 State Plan Priority Strategies**

1. Business engagement
2. Community engagement
3. Customer-centered design
4. Funding and resources
5. Policy and system alignment
6. System management

## **COVID-19 Pandemic Response**

In early 2021, the GWDB continued to host virtual Workforce Roundtables with members of priority industry sectors – Healthcare and Social Assistance, Manufacturing, Construction, Professional and Business Services and Natural Resources (including Agriculture and Mining). The purpose was to support members and gather information on the challenges they have faced during the global pandemic. Discussion centered on the following broad topics:

1. Changes to workforce needs of businesses/industries due to COVID-19 Pandemic.
2. Strategies companies are deploying, not just to recruit new workers, but also to create career pathways for workers.
3. Hiring, retaining, training, or supporting immigrants/refugees and individuals with disabilities in the workplace.
4. The special challenges of the hospitality and service industries, and how the workforce development system can support employers and career seekers who require a family-sustaining wage.

Quarterly business meetings of the Board have been convened virtually throughout the COVID 19 Pandemic including an “Alignment Summit” with the Minnesota P-20 Education Partnership in July 2021.

## **FOCUS ON EQUITY**

DEED’s Office of Economic Opportunity (OEO) leads internal efforts and external community engagement to reduce the disparities faced by populations with barriers to employment, including strategies to achieve the goals of the WIOA Combined State Plan. Since 2015, OEO has supported DEED staff and partners in implementing equitable practices and policies in workforce development. OEO Initiatives in 2021 included:

- community engagement efforts to connect DEED to partners such as employers, nonprofits, workforce boards, and community groups
- performance management of internal DEED program goals and strategies
- promotion of equity goals that reduce disparities based on race, ability level, geography, gender, and veteran status

- serving as liaison to American Indian tribes for consultation on DEED policies and programs

Over the last year, OEO continued to help guide equitable implementation of WIOA, oversee DEED's community engagement efforts with diverse communities, and align DEED's economic equity activities with other state agencies and external partners. In 2021, OEO focused on individualized coaching to support internal teams working on their equity goals.

When the COVID-19 Pandemic began, the external role of OEO expanded and increased DEED's efforts to provide information and resources to communities of color. One example is the OEO weekly Community Call that provided up-to-date information and answer direct questions from community members. DEED used these opportunities to share workforce opportunities, which is aligned with the WIOA state plan goals.

Additionally, working with the Office of Diversity and Equal Opportunity, DEED created an Equity Change Framework and is using it to coach DEED staff to develop Equity OKRs for their programs. Guiding our work is the overarching goal for DEED, to drive an economic comeback from the COVID-19 Pandemic, focused on people and businesses who face systemic barriers to growth.

Additionally, OEO with Senior DEED Leadership Team established Five Racial Equity Commitments: <https://mn.gov/deed/newscenter/social-media/deed-developments/?id=525220>. These commitments help organize the agency around racial equity with the intention of the department being stronger.

## WIOA PERFORMANCE MEASURES

Minnesota continues to meet or exceed our WIOA performance measures for Titles I and III. [Training and Employment Guidance Letter \(TEGL\) 14-21](#), issued by the USDOL on June 15, 2022, limits performance assessments in Program Years 2020 and 2021 to only two measures: Employment Second Quarter After Exit (Q2 Employment) and Median Earnings Second Quarter After Exit (Q2 Earnings). Results of the common performance measures can be found in Appendix B and Appendix Y.

All of Minnesota's Title I and III programs exceeded the Q2 Earnings measures in Program Year 2020. Preliminary data (based on comparing our actual levels of performance to our negotiated levels of performance) indicates Minnesota will continue to exceed this measure in Program Year 2021.

Minnesota's WIOA Dislocated Worker program exceeded the Q2 Employment measure. The remaining Title I and III programs met between 89.9% and 99.1% of our adjusted levels of performance on the Q2 Employment measure. Preliminary data (again based on comparing our actual levels of performance to our negotiated levels of performance) indicates all of Minnesota's Title I and III programs will not exceed this measure for Program Year 2021. Instead, it is likely Minnesota will meet between 80% and 95% of our Q2 Employment adjusted levels of performance.

Though the State of Minnesota currently has one of the lowest unemployment rates in the country, it is important to remember that the cohorts of program participants in these measures exited their programs shortly after the height of pandemic unemployment rates (July 1, 2020, through June 30, 2021, for Program Year 2021 measures). Minnesota's seasonally adjusted unemployment rate peaked at 10.8% in May of 2020, meaning the cohort participants who exited in the second half of 2020 still faced a challenging economic environment. The State believes this is a primary reason why our Title I and III programs will not exceed our adjusted levels of performance in Program Year 2021, unless the unemployment rate in the Statistical Adjustment Model adjusts our performance measure downward.

## **EFFECTIVENESS SERVING EMPLOYERS**

The Workforce Strategy Consultants (WSC) serve as one of DEED's primary employer engagement teams. The six WSCs provide services in Minnesota's six workforce regions, and they offer regional integrative expertise of in-demand sectors, talent pipelines, partnerships, and economic development strengths and opportunities. Their primary focus is developing innovative workforce solutions with businesses, primarily those receiving economic development funding, through a customized consultative process, driven by regional and state data, best practices, employer goals and strengths, and community supports and resources. By aligning these resources, facilitating collaboration, and leveraging expertise that drive regional economic equity and growth, the WSCs provide value by leveraging expertise in industry sector workforce strategies, connecting key stakeholders to workforce development and economic development resources, and by designing tools and resources to support businesses in developing strategic and relevant workforce solutions.

The WSC's regional work is highly successful due to the strong partnership with LWDAs, employers, education partners, community organizations along with DEED's regional employer outreach teams, which include Business Development Managers, Job Service Managers, Layoff Aversion (Rapid Response) Specialists, Veterans Representatives, Vocational Rehabilitation, Grant Specialists, and Labor Market Analysts. The WSC's enhance economic prosperity while assisting key stakeholders in the successful implementation of the regional and local plans.

### **Customers and Services**

In PY21, WSCs conducted hundreds of individual business consultations and connected with almost 1,100 employers, resulting in development and implementation of short-term and long-term workforce strategies at no cost to the business. The WSCs assisted with connecting employers to talent attraction and retention resources, including grant opportunities, labor market information, skills assessment, tax credits, industry organizations, education, and community organizations. In addition, they implemented innovative strategies including business-led industry sector partnerships and access to untapped labor pools. Also, they educated over 2,600 different employers through "Workforce Wednesday," a monthly webinar series focusing on key workforce challenges and solutions.

### **Achieving Equity**

One of DEED's priorities is to address disparities and achieve economic equity for all Minnesotans by identifying and breaking down barriers to employment and business opportunities. Data on populations served is valuable and has shown the many opportunities available. In addition, WSCs focus on providing resources to minority-owned businesses and connecting organizations that serve immigrant and refugee population, and communities of color with employers.

### **Enhanced Alignment with Economic Development**

In PY21, the WSCs focused on the integration to Economic Development while increasing collaboration with Workforce Development. This effort created a stronger alignment and connection for the businesses that need talented pipelines of workers. The alignment increases collaboration and partnership, greater understanding of workforce needs, and encourages career pathway development.

### **Funding Source and Allocation**

The WSCs are funded with Wagner-Peyser funds.

## STATE PERFORMANCE MEASURES

For PY20 and P21, Minnesota did not have working local area statistical adjustment models for negotiating performance measures with the Title I local workforce development areas. Instead, Minnesota used the statewide negotiated measures alongside historic local performance numbers and dynamic datasets and workbooks to ensure negotiated local measures would enable the state to meet the negotiated statewide measures. Results of the state performance measures can be found in Appendix Z. [Training and Employment Guidance Letter \(TEGL\) 14-21](#), issued by the U.S. Department of Labor on June 15, 2022, limits performance assessments in Program Years 2020 and 2021 to only two measures: Employment Second Quarter After Exit (Q2 Employment) and Median Earnings Second Quarter After Exit (Q2 Earnings). Minnesota is similarly limiting our assessment of state performance measures to these two measures for Title I programs.

In PY21, 31% of the LWDAs exceeded their negotiated Q2 Employment measure. The remaining LWDAs met, on average, 88.6% of their negotiated measure, with the minimum met percentage being 60.0%.

In PY21, 87% of the LWDAs exceeded their negotiated Q2 Earnings measure and the remaining LWDAs met, on average, 86.5% of their negotiated measure, with the minimum met percentage being 64.9%.

Minnesota is continuing to improve the process by which it sets local area performance measures, particularly the Q2 Employment measure. The use of local area statistical models for Program Years 2022 and 2023 will enable more nuanced and informed negotiations with local areas and will allow for creation of adjusted levels of performance to more accurately assess if local areas are meeting or exceeding the performance would expect for the participants they served.

In addition, given Minnesota's low unemployment rate and high job vacancy, the state is assessing how well it serves groups who have been traditionally underserved. Specifically, Minnesota has adapted the Social Vulnerability Index (SVI) devised by the Centers for Disease Control and Prevention (see <https://www.atsdr.cdc.gov/placeandhealth/svi/index.html>) to assess how well Minnesota is serving those who may face multiple barriers to employment or who come from communities most likely to need additional support following a hazardous event, such as the COVID-19 Pandemic. Minnesota is currently at the stage of assessing how well our services have historically reached these communities. Future work will involve assessing how performance outcomes vary by SVI of participants, with the intent of determining if specific service strategies produce better outcomes for participants with high social vulnerability.

## DATA VALIDATION

In October 21, Minnesota provided a draft data validation policy to the Region V office for review. In January of 2022, Minnesota incorporated feedback from the Region V Performance Specialist into a final draft policy, written in accordance with the requirements outlined in Training and Employment Guidance Letters (TEGLs) [23-19](#), and [07-18](#). Minnesota intends to post the policy for public comment in 2023. If applicable, Minnesota will adjust the draft policy to reflect any changes in [TEGL 23-19, Change 1](#), which was released by the Department of Labor on October 25, 2022.

As detailed in Minnesota's current draft policy, data validation will be conducted on a quarterly basis, culminating in an annual training about, and review of, processes and procedures. The required processes and policies were not in place during PY20 or PY21 to conduct a complete round of data validation. In the interim, Minnesota has been using the products made available by the USDOL to meet some of data validation requirements identified in TEGL 07-18. Specifically, Minnesota loads files monthly Participant Individual Record Layout (PIRL) files into the Workforce Integrated Performance System (WIPS) to identify errors, missing

data, out-of-range values, and anomalies. When found, staff work to understand and rectify issues, document solutions, and provide updated guidance to LWDAs where applicable. Minnesota also uses data quality tools from the DOL such as the Quarterly Reports Analysis (QRA) report and the Trade Adjustment Assistance Data Integrity (TAADI) tool to identify and correct any data or data entry practices that may not trigger a WIPS error but is still not in alignment with what USDOL expects to Minnesota's files.

Minnesota is currently finalizing the process that will generate the quarterly pulls of participant records to be validated. The process is built to allow WIOA programs to vary the sampling methods used each quarter based on the results from the previous quarter. For example, the program administrators can initially choose to use a stratified random sample with a confidence level of 99% and a margin of error of 5%, where the sample is stratified by LWDAs. Choosing this sampling methodology will provide the program statistical confidence in the overall validity of their data as a program, while still allowing them to detect patterns of invalid data by local area. Should specific local areas appear to have higher proportions of invalid data, the program can choose the following quarter to change sampling methodologies and focus on pulling a simple random sample from a specific LWDA to fully understand and correct any problems the prior quarter's review suggests might exist.

Minnesota is also building a dynamic, macro-enabled workbook (hereafter referred to as "the application") to aid monitors and program staff in conducting their audits of the sampled records. The PIRL data elements identified in TEGs 07-18 and 23-19 for validation are numerous and vary by program. The application being built will be able to accommodate these differences by program and display only those data elements required to be validated by each program. The application will also only display the data for a particular program in a particular local area, ensuring that only those staff who would normally have access to a participant record will also have access to the PIRL records. Finally, the application will allow staff to track their work in validating data elements and produce summary statistics that will enable staff to quickly recognize any patterns data validity.

## CAREERFORCE

Minnesota's One Stop Career Link System (CareerForce) is administered by the DEED. The services provided within the CareerForce locations are provided in partnership between DEED and the LWDAs around the state. In response to the COVID-19 Pandemic, DEED worked with its workforce partners, LWDAs and employers, to reimagine the CareerForce service delivery model. As a result, Minnesota quickly pivoted and implemented a new and safe hybrid CareerForce service delivery model. In addition, Minnesota offered skills training courses via Coursera, an online education and training tool.

CareerForce assists Career Seekers by providing the right tools and resources to prepare for and find good employment. There are 50 CareerForce locations across the state of Minnesota. The CareerForce Division delivers the ES Program, which helps anyone who is seeking employment connect with hiring businesses. There are no eligibility requirements to receive basic career exploration and job search assistance through Employment Services. CareerForce also connects people with other programs and services for which they may be eligible. These programs and services are provided by workforce development partners in the CareerForce locations. CareerForceMN.com is the digital presence for CareerForce. On this website, career seekers, employers, and workforce system partners can find out about services, access customized resources, and find contact information to get assistance. The website features resources to assist people of color, recent immigrants, people with disabilities, veterans, seniors, re-entry populations, and youth. Services were

adjusted to meet the increasing needs of online and virtual services, providing focused and relevant content to career seekers and employers accessing CareerForce services outside of the physical locations.

## LABOR MARKET INFORMATION

DEED's Labor Market Information Office (LMI) continues to develop and enhance online tools to assist career seekers explore careers, consider training opportunities, understand their preparedness for job seeking, and identify skill gaps. The focus over the last two plus years since the COVID-19 Pandemic disrupted the labor market has been to enhance existing tools and develop new tools to help unemployed workers explore in-demand careers, and to help policy makers better understand the impact of the recession on workers. Data tools can be found online at <https://mn.gov/deed/data/data-tools/>.

To respond to changing conditions, DEED updated several tools with new data. Career exploration tools that have been updated with new data include the following: [Career and Education Explorer](#), [Job Vacancy Survey](#), Unemployment Insurance claims, [Occupations In Demand](#), [Match Jobs to Experience](#), and [Graduate Employment Outcomes](#). These tools help the more than 44,000 people per week on average who claimed UI benefits last year, as well as students and workers looking to enter the labor force or change careers, have the information they needed to find their next career. These tools were designed with guidance from job counselors, who use them in their daily work with career seekers and career explorers.

A new tool targeted for students and their counselors, called [Career Pathways](#) was developed this past year in collaboration with educators. Other new data visualizations include the [Economic Recovery Dashboard](#) and [Comparing Recoveries](#), designed for policy makers who want to better understand the state's path to recovery from the COVID-19 Pandemic Recession. These interactive tools provide comprehensive information about occupations including [wages](#), current and future job demand, and educational requirements, available at a statewide or regional level. LMI provides a wide variety of useful data including [industry employment statistics](#), [employment projections](#), [unemployment statistics](#), and more. The [regional labor market](#) section also provides comprehensive [research and reports](#) at a more local level, while DEED also publishes monthly blogs and articles with relevant labor market information. Finally, the Regional Analysts provide training for the Workforce Development staff and partners on understanding and using labor market information. Together the Regional Analysis team of five provided 31 trainings to 850 staff and partners in PY21.

## WAGNER-PEYSER PROGRAM COORDINATION

### Job Seeker Services

The Wagner-Peyser funds the ES program which provides programs and services to businesses and Career Seekers under the designation of Job Service Minnesota. ES provides critical support to Minnesota's CareerForce locations (AJCs) by: funding the salaries of staff who provide career services to career seekers and recruiting assistance to businesses; conducting community outreach for all programs to customers who need us most; operating the CareerForce Information and Assistance helpdesk line; websites, technology, software, and other materials used for job searches; coordinating the CareerForce Corner initiative to strengthen the connection between libraries and AJCs; classes and consultations for career seekers and businesses; and job fairs and other recruiting events.

Wagner-Peyser also directly funds the state's Migrant Seasonal Farm Worker Services; the Workforce Strategy Consultants housed in our Economic Development Division; Federal Fidelity Bonding project; Foreign Labor Certification; Work Opportunity Tax Credits (WOTC); CareerForceMn.com, the statewide access point to all

CareerForce programs and services; MinnesotaWorks.net, the statewide no-fee labor exchange for career seekers and employers; and local workforce programs.

Highlights of the Employment Service Program in PY21 include:

- Conducted 51,748 one on one career services sessions with Career Seekers
- Served 42,899 individuals via online services during the program year. Of those receiving career services, over 18,000 career seekers were assisted in one-on-one sessions and over 7,000 participated in workshops. The most updated available performance data demonstrates that over 8,000 career seekers found a job within 90 days of their last staff-assisted service.
- Throughout the COVID-19 Pandemic, ES staff conducted job search workshops, facilitated networking groups, and provided career services and job search assistance to career seekers online and over the phone. During PY21, ES resumed all in-person services that were delivered prior to COVID-19 Pandemic and continues to provide online and over-the-phone services.
- Work continued to replace Minnesota's labor exchange, MinnesotaWorks.Net. The new labor exchange will offer a mobile friendly website that expands our ability to connect Career Seekers and employers. DEED also intends for the updated website to deliver information about all workforce development services and programs in Minnesota.
- Over 924,000 job openings were posted on MinnesotaWorks.net in PY21 – all current, unique job opportunities from vetted employers, and over 1,800 new employer accounts were created.

### **Migrant and Seasonal Farmworker Program**

The Migrant and Seasonal Farmworker (MSFW) Program connects migrant and seasonal farmworkers to agricultural and non-agricultural jobs. There are four CareerForce locations with significant MSFW services: Faribault, Mankato, Rochester, and Willmar.

Additionally, Job Service created a new Accounting, Budgets and Contract (ABC) team that conducts monitoring. As a result, DEED moved the State Monitor Advocate to this team as monitoring is a primary responsibility.

- Job Service Minnesota has bilingual Spanish-speaking staff at each of these CareerForce locations, known as our Migrant Labor Representatives (MLRs), all of whom have farmworker backgrounds. The MLR staff perform outreach activities where MSFWs work, live or gather. Outreach activities include coordinated efforts with other farmworker service providers in the community. MLRs provide the farmworkers with information on CareerForce services both verbally and in written format, that is in both English/Spanish, and lists resources with DEED partners and within local communities. Farmworkers are also provided with information regarding farmworker rights and the complaint process. They assist farmworkers with applications, provide job referrals, and inform qualified workers of ES. MLRs promote the Agricultural Recruitment System with agricultural employers to help employers with their farmworker labor needs. MLRs are also able to screen U.S. domestic farmworkers for placement with H-2A position opportunities.
- The State Monitor Advocate (SMA) visits communities with substantial MSFW activity to meet with employers, review and assess their needs, and determine the effectiveness of the CareerForce services provided. The SMA works with the MLRs to promote the Agricultural Recruitment System and to assist in meeting the labor needs of agricultural employers. The SMA conducts monitoring activities at each CareerForce location to determine the level of services that are available and provided to MSFWs.

- Minnesota is a Significant MSFW State and is in the top 20 states in serving of MSFW participants.

## **Foreign Labor Certification H-2A and H-2B Programs**

The H-2A temporary visa program allows agricultural employers who anticipate a shortage of domestic workers to bring nonimmigrant foreign workers to the U.S. to perform agricultural labor or services of a temporary or seasonal nature. The non-agricultural H-2B program allows employers who meet the program requirements to hire nonimmigrant foreign workers to come temporarily to the U.S. and perform non-agricultural services or labor based on the employer's temporary need. Most of these workers are in the Southwest, South Central, Southeast, and Northwest regions of Minnesota.

The number of applications to these programs increased over the previous year, because employers are unable to fill temporary positions with U.S. workers. Given the low unemployment rate and the lack of qualified U.S. workers, and the seasonal, temporary nature of the work in both programs means both H-2A and H-2B applications are projected to increase. Approximately 2,500 certified positions were granted under H-2B and 3,440 under H-2A during PY21.

Housing inspections are required annually for H-2A employers. In PY21, Federal funding through an annual grant from the USDOL increased by one-third over the previous several years' funding levels. The increased funding allowed DEED to hire an additional full-time staff position to work directly with the Foreign Labor Certification Coordinator.

## **Work Opportunity Tax Credit**

The Work Opportunity Tax Credit (WOTC) program provides a federal tax credit to private-sector employers and 501(c 3) nonprofit organizations (veteran target groups only), as an incentive for hiring members of groups who traditionally have difficulty finding jobs.

Primary customers of this hiring incentive are Minnesota employers who are interested in hiring targeted Career Seekers and the targeted career seekers themselves. Some of the targeted groups include recipients of the Minnesota Family Investment Program (MFIP); Supplemental Nutrition Assistance Program (SNAP) disabled and unemployed veterans; ex-felons; Supplemental Security Income recipients, and Qualified Long-Term Unemployment Recipients. In PY21, Minnesota employers made 89,160 WOTC hires. WOTC was reauthorized in 2021 and is valid through December 31, 2025.

## **DISLOCATED WORKER PROGRAM**

The Dislocated Worker (DW) program assists individuals overcome barriers to employment and return to work as quickly as possible. The program works toward the dual goals of being responsive to the state's economic needs which change from year-to-year while delivering consistently high performance to employers and unemployed workers.

The program is intended to mitigate the negative impact of layoffs to individuals, communities, and the economy. The program's benefits are three-fold:

- Workers can quickly re-enter the workforce into jobs with comparable wages and benefits;
- Employers can find skilled and experienced workers needed to meet their business needs; and
- Minnesota's economy and businesses remain globally competitive in favorable and challenging economic times.

The number of employed people in Minnesota has varied throughout the year as we overcame the COVID-19 Pandemic. Looking at statewide non-farm employment counts:

Date	Total Nonfarm Employment	Difference from Previous Month	Difference from Previous Year
July 2021	2,888,183	9,431	151,056
August 2021	2,883,374	-4,809	112,355
September 2021	2,855,356	-28,018	75,448
October 2021	2,880,593	25,237	49,675
November 2021	2,880,833	240	63,044
December 1, 2021	2,860,746	-20,087	103,945
January 2022	2,817,968	-42,778	68,118
February 2022	2,833,850	15,882	68,463
March 2022	2,847,025	13,175	68,601
April 2022	2,880,043	33,018	58,702
May 2022	2,933,230	53,187	73,364
June 1, 2022	2,969,178	35,948	90,426

As such, individuals being served through the DW program were those with significant barriers to employment in need of more intensive resources. Individuals enrolled in the DW program received one or more of the following: career services, training services, and supportive services.

- **Career services** included activities such as initial skill assessments, labor exchange services, development of an Individual Employment Plan, career counseling, peer support groups, referral to supportive services available in the community, pre-vocational, and work readiness training.
- **Training services** assisted participants with identifying interests, skills, and abilities to maximize employment choices. Training services included occupational skills training, on-the-job training, apprenticeship training, and entrepreneurial training.
- **Supportive services** provided a participant with the resources necessary for them to be successful while enrolled in career and training services. Supportive services included assistance with transportation, childcare, housing, health care, school supplies and linkages to other services.

### State-Funded Dislocated Worker Program

Minnesota is unique in having both a state and federally funded Dislocated Worker (DW) program. The state funded DW program, through the state's Workforce Development Fund (WDF), which allows Minnesota to serve a greater number of DW participants. The state DW program has added eligibility criteria that allows individuals who are long-term unemployed to receive DW services. The state program served 5,009 individuals in PY21. To provide direct services to customers, DW provides state grants to a network of 16 LWDAs, as well as eight independent non-profit service providers. Several of the independent service providers focus on providing unique language-and culturally specific services. The state funded DW participants are not included in the performance information provided in this report.

## **Mass Layoffs and Rapid Response**

Rapid Response is a proactive, business-focused strategy designed to respond to layoffs and plant closings by quickly coordinating services and providing immediate aid to companies and their affected workers. Rapid Response teams work with employers and employee representative(s) to quickly maximize public and private resources to minimize disruptions associated with job loss.

In PY21, the COVID-19 Pandemic continued to impact businesses throughout state, and Minnesota's State Rapid Response Team (SRRT) worked closely with businesses and employees who were impacted by permanent business closures and layoffs. DEED received and processed 47 Worker Adjustment and Retraining Notifications (WARNs). Approximately, 5,622 individuals received information and services from the SRRT. The SRRT worked with over 121 businesses and their affected employees on both small and mass (over 50 employees) layoffs and closures. Combined, the SRRT served a total of 9,011 individuals who were impacted by layoffs and business closures.

Rapid Response collaborated with the WSCs, Business and Community Development (BCD), the UI Division and local and regional partners to provide early warning indicators of a business layoff or potential closure. Some other strategies and permissible Rapid Response Activities include:

- Ongoing engagement, partnership, and relationship-building activities with businesses;
- Developing, funding, and managing incumbent worker training programs and other worker upskilling approaches as part of a layoff aversion strategy or activity; and,
- Conducting analyses of the suppliers of an affected company to assess their risks and vulnerabilities from a potential closing or shift in production of their major customer.

### **SRRT accomplishments during PY21:**

- Developed a robust and effective Layoff Aversion strategy to include an Early Warning Network to monitor and predict plant closures, to implement response and prevention strategies.
- Held bi-monthly Metro Area Outreach Group meetings to provide outreach, technical assistance, and information to the states Metro Area DW service providers and to discuss marketing and advertising strategies on how to attract individuals affected by layoff and closure to enroll in the DW program.

## **Co-enrollment and Trade Adjustment Assistance**

Though co-enrollment is now mandated between the TAA Program and WIOA Dislocated Worker Program under the Final Rule, Minnesota has required co-enrollment with the Dislocated Worker (DW) program for many years. TAA created and distributed booklets and quick guides to all participants enrolled in TAA-funded training and their DW Counselors, called Navigating TAA Training. The information is offered in five (5) languages and posted online as a resource for participants in training and staff serving them <https://www.careerforcemn.com/TAA>. Additionally, Minnesota's TAA program shifted to a paperless environment and 100% of participant files are electronically stored. The shift saved materials, space, time, and promoted better coordination for staff to cover for each-other during absences and staff transitions.

## **National Dislocated Worker Grants**

National Dislocated Worker Grants (DWG) are awarded to states by the USDOL to temporarily expand the service capacity of the DW program by providing funding assistance in response to large, unexpected economic events with significant job loss. Minnesota was awarded two National Dislocated Worker Grants;

one addressing the COVID-19 pandemic and one responding to the ongoing opioid crisis. As of October 10, 2022, the state served 282 individuals through the COVID-19 and Opioid DWGs.

### **COVID-19 DWG**

In June of 2020, USDOL awarded MN \$2,535,795 for disaster-relief and humanitarian assistance employment, as well as employment and training services, as appropriate, to minimize the employment and economic impact of COVID-19 Pandemic. Through the efforts of nine LWDAs, the funds serve Dislocated Workers and pay the wage and benefits for temporary disaster-relief employment. With the uncertainty of the COVID-19 Pandemic and its impact continuing to affect the state, maintaining the health and safety of the community continues to be a priority for the state. To date, 206 career seekers have accessed these funds to support these unique service types; 144 Basic Career Services, 141 Individualized Career Services, 22 Work Experience services, 52 training services, and 80 accessed Disaster Relief Employment services.

### **Opioid DWG**

In November of 2020, USDOL awarded Minnesota \$1,300,000 (\$800,000 initial) to respond to the unique challenges faced by the workforce due to the opioid epidemic. The funds support the creation of peer-support counseling positions that address the unique recovery needs of individuals affected by opioid use. The grant also provides employment and training services to reintegrate eligible individuals back into the workforce. To date, 84 career seekers have accessed these funds to support the following unique services; 69 Basic Career Services, 80 Individualized Career Services, 24 Work Experience services, 46 training services, and 13 Disaster Relief Employment services.

### **Performance Results**

Minnesota's WIOA Dislocated Worker Program (WIOA DW) was within successful range on all planned performance goals in PY21. During the year, the WIOA DW served 2,033 individuals with \$10,349,177. The level of educational attainment for WIOA DW participants prior to accessing program services is significantly lower than Minnesotans as a whole; 62% percent did not hold a post-secondary degree at enrollment. To a large extent, WIOA DW participants reflected the state's racial and ethnic labor force with over 26 percent of enrollees identifying as a person of color whereas this population makes up roughly 22 percent of the state's labor force. (<https://www.census.gov/quickfacts/fact/table/MN/LFE041220#LFE041220>). In addition, other demographics served in PY21 included individuals with disabilities (8.9%), Foreign Born (14.2%), Immigrant/Refugee (16.5%), and English as a Second Language learners (11.9%).

### **Accomplishments from PY21**

- Minnesota continued to successfully respond to challenges created by the COVID-19 Pandemic and implemented a virtual and in person service delivery models to continue serving customers.
- Minnesota TAA added a Chatbot feature to CareerForceMN.com, the state of Minnesota's website for Career Seekers and employers, to increase outreach efforts to our stakeholders and align with current customer expectations. The chatbot was highlighted on a Department of Labor blog at this link: [https://taa.workforcegps.org/blog/general/2022/04/25/15/19/MN\\_Chatbot](https://taa.workforcegps.org/blog/general/2022/04/25/15/19/MN_Chatbot). The Chatbot allowed for communication with customers after standard business hours.
- In accordance with TEGL 11-19, the state successfully completed performance goal negotiations with the USDOL and all local workforce development areas for four performance indicators connected to both PY22 and PY23.
- The WIOA DW program successfully met all federally mandated performance outcomes and surpassed the national average in certain areas. Adjusted levels of performance for PY20 showed a decrease to

the 2<sup>nd</sup> Quarter Employment goal and an increase to the Median Earnings goal for WIOA DW, yet the state achieved these adjusted performance goals.

## Looking Ahead: Goals and Priorities for PY22

- Increase program awareness and access for communities disproportionately impacted by COVID-19 Pandemic, low-income communities, and communities of color.
- Enhance collaboration and customer outreach, Minnesota TAA will submit a proposal to UI to increase partnership at RESEA sessions, Employer Educational Seminars, and request a UI “pop-up” to alert UI applicants of the TAA program.
- Align the WIOA policies with federal law and regulations and proactively providing technical assistance to the staff of WIOA program providers.

## Demonstration Grants

The **Legacy Demonstration Grant** is a federal pilot program also funded through the USDOL. USDOL awarded Minnesota \$975,345.00 to work with relevant local stakeholder partners to develop and implement a replicable and innovative model for service delivery for low-income older workers. The Senior Community Service Program (SCSEP) provides essential training and much-needed work experiences with Community Service Assignments (CSA) for qualifying low-income adults who are 55 and over. USDOL allowed DEED to leverage what it had learned from serving SCSEP participants and other populations with significant barriers to employment, to create a new model: The Legacy Demonstration Grant (Legacy.)

Over the past several years, DEED worked closely with four LWDAs to implement the program and closely track aspects of the program which were especially successful in helping 148 low-income older workers. The four (4) providers began their work in January 2019 and ended October 2021. The pilot program was successful due to many factors, including the support services provided to participants and the strategies implemented to address the digital divide.

The **Minnesota Retaining Employment and Talent after Injury/Illness Network (RETAIN) Program** purpose is to improve the retention and employment of injured/ill workers and prevent unnecessary disability. MN RETAIN is a team of employers, health care providers, and specialized case managers who, along with the workers, design appropriate therapies, accommodations, or training that keep the worker employed after an injury or illness. This model focuses on work as a social determinant of health; staying active and safely returning to work is known to speed healing and improve outcomes for the worker. With increased job disruption and potential long-term health impacts to workers due to the COVID-19 Pandemic, assistance to help employers, healthcare providers, and state agencies who support MN workers is integral to ensure a sustainable workforce in Minnesota.

MN RETAIN also aims to demonstrate how early coordination of health care and employment-related supports and services, can result in earlier return to work, improved retention and function for employees, and earlier, lower cost referrals to job development and career services. These supports and services include education and training in occupational health best practices for participating health care providers; active involvement of a Return-to-Work Coordinator throughout the medical recovery period to facilitate continued employment; enhanced communication among workers, employers, and health care providers; and providing accommodations and job modifications. In Phase I, the project served 150 participants with a grant award of \$3.5 million. MN was one of five states to receive Phase II funding (\$19.2 million) to expand statewide and serve 3,200 eligible participants over four years. As of 10/22, Minnesota has served 469 participants.

## **YOUTH PROGRAM**

Minnesota leverages resources and opportunities to help young people – the future workforce – attain the skills, knowledge, and aptitudes to become productive workers in the 21st century economy.

To be eligible for WIOA youth services an individual must be between the ages of 16 to 24 and not attending any school, or an in-school youth between the ages of 14 to 21 who is low-income and at-risk. Minnesota LWDA target services to those most in need and meet the challenge of locating, retaining, and serving out-of-school youth: 75 percent of PY21 expenditures supported services to out-of-school youth. It is important to note that in PY21, seven of the 16 LWDA have a waiver allowing the OSY percentage to be 60 percent instead of 75 percent, affecting overall spending levels. This waiver allows for enhanced services to in-school youth who are either homeless, or in foster care. Through the leadership of the GWDB and LWDA, Minnesota's WIOA Youth Program provides comprehensive services to youth experiencing an "opportunity gap." Sample Local Youth Plans are posted on DEED's website at <https://mn.gov/deed/gwdb/priorities/wioa/#2>, under the heading of Youth Plans.

### **Accomplishments from PY21**

Minnesota blended and braided federal, state, and local funds to address the needs of youth, who were disconnected from school and jobs. During the COVID-19 Pandemic, youth service providers worked with local workforce development partners to provide supportive services, and work experiences for targeted youth. WIOA Youth experienced unemployment rates four to five times that of the overall youth unemployment rate. COVID-19 Pandemic required youth service providers to modify their service delivery models.

Minnesota met or exceeded all negotiated WIOA Youth performance goals for PY21, while serving homeless youth and youth with disabilities at levels that exceeded the national average. Minnesota's commitment to improving services to the neediest youth is reflected in its Shared Vision for Youth (SVY) vision statement: "By age 25, Minnesota's young people will be ready for the responsibilities and rewards of economic self-sufficiency, health, family and social relationships, community involvement stable housing and lifelong learning." All Minnesota LWDA developed Shared Vision for Youth Blueprints as part of their WIOA Local Plans, available online at: <https://mn.gov/deed/programs-services/office-youth-development/special/shared-vision/>. The SVY Blueprints include examples of interagency projects underway to improve transition outcomes for at-risk youth with particular emphasis on dropouts and potential dropouts; youth aging out of foster care; youth with disabilities; and homeless youth and runaways. Minnesota successfully met or exceeded all objectives of the DEI project. This included establishing and expending Employment Networks, increased access to WIOA services to rural youth, and expanded the use of the Integrated Resource Team model.

### **Governor's Reserve Funds – CP3 Project**

Minnesota awarded \$500,000 of Governor's Reserve Funds to four LWDA through a Request for Proposal (RFP) process. These funds were used to start the Career Pathways Pilot Project which covered 36 rural counties statewide. The CP3 Projects focused on providing outreach to under-served youth in rural Minnesota. WIOA eligible youth obtain paid work experiences and concurrent training on high-growth and in-demand career pathways. The projects began providing services to youth on July 1, 2020. Minnesota secured a waiver to allow flexibility for CP3 projects to determine mix of In-School and Out-of-School Youth. Services targeted under-represented youth and the projects operated during the height of the COVID-19 Pandemic. Partnerships with the Lower Sioux Indian Community have expanded under the CP3 grant opportunity. This

ongoing partnership supports Native American youth to access WIOA services via the LWDA's, while also receiving cultural supports and development from their community.

Overall, the CP3 project served 154 youth. Of these youth, 58% were women, 45% youth of color, 61% youth with disabilities. The CP3 grant achieved its three goals of increasing services to youth, increased business partnerships, and expanded partnerships with tribal governments. The final report for the CP3 program can be found here: [https://mn.gov/deed/assets/career-pathways-pilot-report\\_tcm1045-540142.docx](https://mn.gov/deed/assets/career-pathways-pilot-report_tcm1045-540142.docx)

**CP3 Project Success Story:** A link to success story: <https://www.youtube.com/watch?v=lfqm2m3XcvI>

## Private Sector Internships

Youth Programs address changing labor force demographics as well as education and employment disparities by connecting under-served youth to internships. Youth Programs help employers prepare for, recruit and mentor the next generation of diverse workers. Minnesota LWDA's and Youth Committees build relationships with private sector employers. Local employers play a variety of roles in supporting youth workforce development goals in high-growth occupations.

The STEP-UP program (City of Minneapolis) and the Right Track program (City of St. Paul) are examples of Minnesota's nationally recognized summer youth employment models that demonstrate the strong role that the private sector can play in supporting youth workforce development goals in urban settings. Find more about the STEP-UP program ([http://www2.minneapolismn.gov/cped/metp/step-up\\_home](http://www2.minneapolismn.gov/cped/metp/step-up_home)) and the Right Track program (<https://www.stpaul.gov/departments/parks-recreation/right-track>).

Southeast Workforce Development Inc.'s Hire UP and Central Minnesota Jobs and Training (CMJTS) Youth Protégés programs are examples of successful private sector internship models in Greater Minnesota.

## Youth Committee Resource Guide

Minnesota developed a Youth Committee Resource Guide, which provides a snapshot of cooperative youth partnerships underway in Local Workforce Development Areas. See our Youth Committee Resource Guide (find it at: <https://mn.gov/deed/programs-services/office-youth-development/resources/>, under Best Practices).

## Partnerships to Serve Teen Parents

DEED, the Department of Human Services (DHS), and the MAWB have worked in partnership since 2009 to serve teen parents receiving Minnesota Family Investment Program (MFIP) benefits or in TANF-eligible households. This partnership has leveraged over \$8.1 million of TANF funds to provide work experience and work-readiness training for over 4,600 teen parents who were receiving MFIP benefits or younger youth who were MFIP recipients. The partnership addresses disparities in MFIP outcomes, especially the Work Participation Rate, for African American and American Indian participants. Many of the participants have little or no previous work experience, and they develop work readiness skills through their participation in the project. Participants are assigned a youth counselor/case manager and receive labor market information highlighting in-demand industries and educational opportunities available in the region. Co-enrollment in the WIOA Youth Program and the Minnesota Youth Program, when appropriate, has contributed to the success of these projects. The TANF project has enabled young adults to explore educational opportunities and fulfilling careers that will set them and their families up for lifelong success. Since 2020, the DHS has allowed funding to be used on a year-round basis which provides continuity of services for both work sites and youth participants. Providers also developed creative ways to provide opportunities for youth to continue to build skills virtually even when most in-person work experiences were not available due to the COVID-19 Pandemic. TANF Youth

Innovation information can be found on the project webpage (see: <https://mn.gov/deed/programs-services/office-youth-development/special/tanf/>).

## **Youth at Work Opportunity Grants**

The Minnesota Legislature provided \$4.09 million per year for Youth at Work Opportunity Grants to provide work experience, internships, and an introduction to career pathways for over 11,000 youth. Special consideration was given to projects which provide education and training requirements for careers in high-growth, in-demand occupations, target youth from communities of color, and target youth with disabilities. For more information on the Minnesota Youth at Work Opportunity Grants (see: <https://mn.gov/deed/programs-services/office-youth-development/special/grants/> ).

## **Minnesota Youth Program**

A \$4.05 million per year investment in the Minnesota Youth Program (MYP) resulted in services to an additional 3,278 at-risk youth through individualized work experience and experiential learning. Through the Outreach to Schools component of MYP an additional 19,975 youth received services. OTS provides high school students (especially under-represented youth) with career counseling services through one-on-one counseling, group presentations and regional events. For more information on the Minnesota Youth Program see: <https://mn.gov/deed/programs-services/office-youth-development/youth-programs/youth-program.jsp>.)

## **Youthbuild Coordination**

The Minnesota Legislature provided \$1 million in state-funding which supports ten state Youthbuild programs serving low-income, at-risk youth ages 16 to 24. Each state dollar is matched by one local dollar. Of 457 youth served during the past year, 93% obtained a diploma or GED or continued in high school and over 90% entered employment, registered apprenticeship, or a post-secondary degree program upon completing the program and high school. Since 2016, five Minnesota organizations have received approximately \$15 million in federal YouthBuild awards. For more information on the Minnesota Youthbuild Program see: <https://mn.gov/deed/programs-services/office-youth-development/youth-programs/youthbuild.jsp>.

## **Disability Employment Initiative, Partners for Youth Career Pathways – Lessons Learned**

Minnesota completed the Round 7 Youth Disability Employment Initiative in March 2020. Through multi-agency partnerships spanning the state and local levels, Minnesota's Partners for Youth Career Pathways successfully supported over 400 youth with disabilities in achieving their education and employment goals through an intergenerational, person-centered approach. Minnesota's Partners for Youth Career Pathways grant was recognized by USDOL in a Promising Practices Brief on WorkforceGPS. The brief highlighted the PACER Center's publication, "Incorporating the Guideposts for Success into Minnesota's Personal Learning Plan Process" found here: [https://mn.gov/deed/assets/learning-processes-guide\\_tcm1045-390463.pdf](https://mn.gov/deed/assets/learning-processes-guide_tcm1045-390463.pdf) and the Youth Action Plan/Individual Service Strategy document utilized by Southwest Minnesota Private Industry Council. The Youth Action Plan/Individual Service Strategy aligns the 14 WIOA Youth Program Elements, allowable Pre-ETS (VRS-funded) activities, and the five Guideposts for Success. This document helps staff to better align and provide services across multiple programs. The Youth Action Plan/Individual Service Strategy can be found here: [https://mn.gov/deed/assets/iss-plan\\_tcm1045-326826.pdf](https://mn.gov/deed/assets/iss-plan_tcm1045-326826.pdf). PACER's publication can be found on the Youth DEI webpage, here: [https://mn.gov/deed/assets/learning-processes-guide\\_tcm1045-390463.pdf](https://mn.gov/deed/assets/learning-processes-guide_tcm1045-390463.pdf). DEED's Office of Youth Development developed a White Paper on lessons learned from the Youth DEI Capacity Building grant, here: <https://mn.gov/deed/programs-services/office-youth-development/special/disability-employment-initiative/>.

**Impact of Youth-Specific Waiver Requests:** Minnesota plans to re-new the following waivers for PY2022; the waivers provide Minnesota WDAs with the flexibility to provide high-quality, cost-effective services to both Out-of-School and In-School Youth.

### **Homeless Youth/Foster Youth Waiver**

Minnesota secured a waiver from the USDOL that assures the LWDAs have the flexibility to target services to in-school youth who meet DOL's definition of homeless youth. A Minnesota Department of Education survey identified over 3,600 youth in grades 8-12 statewide who were homeless; over 75% were youth from communities of color. This waiver allows the state to reduce the required out of school youth (OSY) expenditure rate from 75 percent to 60 percent for LWDAs who prioritize in-school youth who are homeless or foster youth.

Minnesota's Homeless Youth/Foster Youth waiver provided seven LWDAs, in PY21, with the flexibility to target homeless youth and foster youth while they are still in school. Services include provision of critical employment and training services to at-risk in-school youth without jeopardizing the delivery of services to out-of-school participants. This waiver supports one of the goals of Minnesota's State WIOA Plan: to increase high school graduation rate for under-represented youth.

Overall, of the 2,422 served, 373 (15 percent) were homeless/runaway youth. Of these 373, 66 were ISY homeless youth without a HS diploma at enrollment.

A total of 115 youth identified as either in foster care, or previously in foster care. Out of the 115, 37 were ISYs. Performance results for PY21 youth exiters who were either in foster care or who had previously been in foster care are on the following page.

### **Impact of In-School Youth Individual Training Account Waiver**

The COVID-19 Pandemic impacted Minnesota's use of Individual Training Accounts (ITA): 112 were set up statewide. In PY21, 16 ITAs were set up for in-school youth and another 96 ITAs were set up for out-of-school youth. Overall spending on training for in-school youth (credentialed/noncredentialed) is down due to the COVID-19 Pandemic.

### **Impact of Waiver of 75% OSY Expenditure Requirement: Governor's Reserve Funds for Direct Services**

In PY20, Minnesota awarded (Competitive Request for Proposal Process) \$250,000 of State Set-Aside funds/Governor's Reserve funds to two agencies serving under-represented youth, using the Youthbuild program model: Goodwill/Easter Seals of Minnesota (targets out-of-school youth) and Southeastern Minnesota Workforce Development, Inc (targets in-school youth). Both agencies provided services to youth between the ages of 16 and 24. The waiver eliminated the requirement that 75% of the funding be spent on out-of-school youth: the agencies had the flexibility to determine the mix of ISY and OSY.

### **Waiver Renewals**

When WIOA is reauthorized, states and local areas will have more flexibility in determining eligibility for services. In the meantime, the waivers allow MN the flexibility to offer cost-effective, high-quality services to both In-School Youth and Out-of-School Youth. For these reasons, Minnesota Youth will renew/extend all current waivers.

## COVID-19 Pandemic Response

In response to the COVID-19 Pandemic, youth service providers offered virtual service delivery in addition to offering incentives and stipends. Information about providing services in virtual formats from USDOL were shared with the LWDA's. Offering incentives and stipends to youth is a critical strategy used to support youth as they complete programming. Many businesses were forced to end work experience opportunities early and delay new work experiences until economic conditions improved. In response to this, incentives and stipends offset the economic impact that economically-disadvantaged and at-risk youth faced because of drastically reduced summer employment opportunities. Incentives and stipends are one way in which youth employment programs direct economic support to youth in an ever-shifting labor market. Resources on virtual services, incentive policies, and stipend policies can be found here: <https://mn.gov/deed/programs-services/office-youth-development/resources/>.

## Performance Results

Minnesota met or exceeded all PY21 WIOA Youth performance goals listed in Appendix B. Minnesota's WIOA Youth Program served 2,422 youth in PY21: 38 percent of the youth served had a disability; 74 percent were youth from communities of color; 47 percent were from families receiving public assistance; 15 percent were system-involved youth (foster youth or juvenile offenders); and 15 percent were homeless youth/runaways.

## ADULT PROGRAM

The WIOA Adult program provides employment and training assistance to adults who face significant barriers to employment. The WIOA Adult program prioritizes veterans, individuals who receive public assistance or who are basic-skills deficient, and individuals with low incomes. Each LWDA has the authority to select the unique set of services that it will offer to its WIOA Adult customers and is responsible for strategic planning, program oversight, and coordination of resources.

For each participant, the overarching goal is obtaining or retaining employment in an in-demand occupation that provides a family-sustaining wage. WIOA Adult program participants work to increase their earnings, retain employment, and diversify their occupational skills. Eligible individuals who are enrolled in the WIOA Adult program may receive one or more of the following: career services, training services, and supportive services. These categories of services offered are the same as what are offered in the Dislocated Worker Program but are uniquely tailored to best meet the needs of the participant.

## Performance Results

Minnesota's WIOA Adult Program served 1,660 participants and were in successful range on all planned performance goals in PY21. During PY21, 29.8 percent of Adult program participants were long-term unemployed at the time of their first service, 72.4 percent were low-income individuals, and 30 percent were single parents. The percentages of older workers slightly decrease whereas female workers increased slightly in PY21. The percentage of adult enrollees who are English language learners and/or living with low levels of literacy as well as the percentage of participants of color increased in PY21.

## Accomplishments from PY21

- MN is committed to ensuring outreach and service to individuals with significant barriers to employment, specifically those from underserved communities of color, ex-offenders, and those experiencing homelessness. Of PY21 WIOA Adult participants throughout the state, over 49 percent identified as being from a community of color, nine percent identified as ex-offenders and four percent identified as experiencing homelessness.

- The WIOA Adult program was successful in all federally mandated performance outcomes and surpassed the national average in certain areas. Adjusted levels of performance for PY20 showed an increase for both the 2nd Quarter Employment and Median Earnings goals for WIOA AD, yet the state was still successful in achieving these adjusted performance goals.

### Looking Ahead: Goals and Priorities for PY22

- Increase program awareness and access for communities disproportionately impacted by the COVID-19 Pandemic.
- The Minnesota WIOA Adult program will conduct targeted outreach and engage individuals with multiple and deep barriers to employment. These efforts will improve access to the program for individuals who are not currently using the services they may need.

### Older Adult Program

The Senior Community Service Employment Program (SCSEP) assists individuals who are age 55 and older, low-income, and unemployed receive on-the-job training or work experience opportunity through paid community service assignments (CSAs). SCSEP matches eligible participants with part-time CSAs through one of 11 providers throughout the state. In PY21, DEED published the SCSEP RFP to bring on two new subgrantees. The two new providers selected are National Able Network Inc. and Somali Community Resettlement Service of Olmsted, effective from July 01, 2022. Although PY21 performance continued to be affected by the COVID-19 Pandemic, SCSEP participants performed a total of 90,542 community service hours, an increase of 75% compared to PY20. For PY21, Minnesota received \$1,906,058 for 197 positions.

### VETERANS EMPLOYMENT SERVICES

The Veteran Employment Services is funded by the Jobs for Veterans State Grant (JVSG) from the USDOL Veterans Employment and Training Service (VETS) to provide employment and training services to Minnesota’s current and former military members. Veterans and eligible spouses receive priority services in all CareerForce locations across the state. The JVSG staff provides individualized career services through one-to-one counseling and support to eligible service members.

Disabled Veteran Outreach Program (DVOP) representatives provide intensive and individualized career services to veterans with significant barriers to employment (ISBE) which include job-readiness assessment, job search strategy, and placement assistance to eligible veterans with significant barriers to employment.

Local Veteran Employment Representatives (LVER) reach out to businesses to develop job opportunities for veterans and educate Minnesota businesses on the value veterans bring to a business. LVERs also aid and guide CareerForce staff and partners on veterans’ programs and benefits.

Minnesota implemented several system-wide strategies to ensure veterans are receiving Priority of Service (POS) to access workforce services. These strategies include educating CareerForce staff, screening for veteran status at all points of entry, offering special programs for veterans, priority ranking for job vacancies and access to workshops, annual Veterans Career/Job Fairs, and Veteran Services to employers.

### Performance Results

- Served nearly twice as many Women Veterans (14% program versus 7% of the Vet population)
- Engaged twice as many Veterans from communities of color or Indigenous populations (16% program versus 8% of the Vet population)

- 84% of Veterans received case-managed services in the State Fiscal Year 2022 successfully exited and the average wage at exit was \$26.87 per hour

## Accomplishments from PY21

- 4843 Veterans were served. CareerForce promotes veterans' services in areas of high traffic, while reception staff also screen all customers for veteran status. Those who self-identify complete a questionnaire, which aids in serving those veterans with significant barriers to employment such as experiencing homelessness, low income, justice-involved, or service-connected disabilities.
- JVSG staff offers special programs for justice-involved veterans through a community steering committee in a diversionary court program operating in several counties. This program is intended to provide an alternative to prison time for those whose military service may have precipitated their criminal behavior, diverting veterans to community services that may be more appropriate for them.

## Priority Ranking for Job Vacancies

Minnesota's job bank provides priority of service to all veterans. All new registrants in Minnesota's job bank (see: <http://www.MinnesotaWorks.net>) who check "veteran status" are prompted to answer a series of questions regarding their military engagement. If identified as an eligible veteran, their name goes to the top of the qualified applicant list, and a flag is displayed by their name to designate their veteran status. All veterans meeting the job's minimum criteria are displayed at the top of the list and are denoted for the employer's benefit. When employers are listing job vacancies, they can identify themselves as a "Veteran-Friendly Employer." Private employers are also encouraged to add the verbiage "Veterans Encouraged to Apply" to job postings, per Minnesota State Statute 197.455.

## Priority Access to Workshops

Veterans interested in attending career workshops can register for a variety of classes directly from [www.careerforcemn.com](http://www.careerforcemn.com). Veterans are never turned away from workshop programming.

## Annual Veteran Career/Job Fair

DEED and the Minnesota Department of Veterans Affairs (MDVA) co-hosted the 16th annual Veterans Career Fair, May 2022. The career fair featured nearly 100 employers offering full-time positions with family-sustaining wages and benefits. Over 350 job-seeking veterans attended the event.

## Veteran Services to Employers

LVERs work with Employer Engagement Specialists and coordinate outreach to employers and create a "Preferred Employer List" with over 100 companies that have agreed to be notified of referrals from Veterans staff. These companies have agreed that these are "priority" referrals and to take additional time when reviewing veterans' resumes. JVSG has implemented Salesforce CRM that is shared by WSCs and LVER staff track contacts with employers and the services provided to them.

LVERs distribute brochures entitled "Minnesota Veterans...Good for Business" to all employers they meet. LVER and WSC staff encourage employers to follow a three-step process to recruit and hire veterans:

1. Post your job opening on [MinnesotaWorks.net](http://MinnesotaWorks.net)
2. Contact a Veterans Employment Representative <https://www.careerforcemn.com/Veterans>
3. Connect with your local yellow ribbon network <https://mnbtyr.ng.mil/Pages/Yellow-Ribbon-Networks.aspx>.

## **Veteran Services Outreach / Services to Special Populations / Initiatives**

### **Chapter 31 Disabled Veterans**

The DEED Veterans Intensive Service Coordinator (ISC) is collocating with The Veterans Affairs (VA) Veteran Readiness and Employment (VR&E) Regional office in Fort Snelling. The ISC is responsible for the coordination of initial communication between the Veteran, the VR&E counselor, and the DVOP. DVOPs typically receive notification of an upcoming Chapter 31 disabled Veteran client within 90 days of graduation or upon designation as "job-ready" by the VR&E office. Once referred to a DVOP, an assessment and an Individual Service Plan are created, agreed upon, and signed.

### **Homeless Veterans**

DEED and MDVA established Homeless Veteran Registry Cooperation Agreement in 2016 which allows JVSG staff to access a SharePoint database of registered homeless veterans. JVSG program assigned an LVER to lead the Homeless Veterans project to ensure referred homeless veterans receive employment services to sustain housing and other services.

Through active participation in the Homeless Veteran Registry, and ongoing partnership in Continuum of Care planning efforts, JVSG is visible and available for Veterans experiencing homelessness throughout Minnesota. JVSG partners with MACV staff which serve on Continuum of Care committees and play crucial roles in informing policy and direction, particularly related to Veteran homelessness. Also, per VPL 3-16, JVSG and MACV partner closely to implement dual enrolling clients to leverage CareerForce resources, MACV's expertise, and services for Veterans experiencing homelessness.

### **Native American Veterans**

Veterans Employment Services serves the Native American Veteran population through the DVOP position in the Bemidji area which includes the Red Lake, Leech Lake, and White Earth Tribal Nations in the northern part of the state. The Bemidji DVOP is collocating with the Tribal Veterans Service Officers (TVSO) at White Earth every Tuesday. DEED also plans to hire a second native Veterans DVOP to serve the Native Americans living in tribal lands in addition to south and west of the Minneapolis/St. Paul area.

### **Women Veterans**

Women Veterans represent approximately 17 percent of returning National Guard and Reserve troops in Minnesota. Minnesota Department of Veterans Affairs estimates there are almost 23,000 female Veterans in Minnesota. Of that number, about 8700 have served in the Persian Gulf, or OIF/OEF. Minnesota has Veteran staff that is active in different Women's Veterans groups and serves as a liaison with the local DAV chapter. Minnesota currently employs 7 Women Veterans Representatives.

### **Justice-Involved Veterans**

DEED signed an interagency agreement with the Minnesota Department of Corrections to provide intensive employment services and counseling for offenders nearing their release date. JVSG staff are assigned as the Justice-Involved Veterans Project Lead, and currently attend the steering committee of the Hennepin County Veterans Diversionary Court Program. As the first its kind in Minnesota, the Court exists to provide an option for veterans that have had encounters with the criminal court system and provide an alternative to prison. The Justice-Involved Veterans Project lead staff works with the court on assessment, referral, and job placement.

## **Demobilizing Veterans and Recently Separated Veterans**

Minnesota's "Beyond the Yellow Ribbon" Reintegration Campaign is the backbone of post-deployment reintegration services. Minnesota DVOP/LVER staff have been a critical part of this process which includes five different events for Service members and their families.

The process begins 3–4 months before deployment. "Family Readiness Academies" are designed to allow families to ask questions and provide information to Troops and their families on what to expect during the deployment. DVOP staff provide resource information and referrals for common issues faced by families. Approximately 30 to 60 days before Troops return home, a "Yellow Ribbon Community Event" is sponsored to help families understand and support their returning Soldiers.

Business owners, educators, civic leaders, and law enforcement are called together for a briefing on what they can expect upon their Soldiers' return. LVER and DVOP staff provide resource information, and answers to some difficult questions relating to their combat experience, and how that may affect their lives. Twenty-six Minnesota service providers send staff and materials to various locations as Troops return from overseas deployment for an Initial Reintegration Event. DVOP staff conducts group presentations to groups of soldiers and work one–on–one after these sessions to prepare resumes, practice interviewing skills, and assist with the job search strategy. As well as provide information on workforce services available.

Following the initial reintegration events, follow–up events known as Phases I, II, and III are offered.

### **The Yellow Ribbon Program**

On May 4<sup>th</sup>, 2022, Tim Walz, Governor of Minnesota, proclaimed the Minnesota Department of Employment and Economic Development to be a: **YELLOW RIBBON ORGANIZATION** in the State of Minnesota. The Yellow Ribbon Company Program pays tribute to those organizations with an exceptional record of caring, commitment, and compassion for servicemembers, veterans, and their families through various programs, policies, and public works. It is with this commitment to caring that the Minnesota Department of Employment and Economic Development will serve with honor and distinction as a Yellow Ribbon Organization.

### **Employer Support for Guard and Reserve (ESGR)**

Thomas Simonet, Chair of the Department of Defense Employer Support for Guard and Reserve (ESGR) signed a statement of support in May 2022, to recognize DEED's efforts in supporting the guard and reserve members.

Also, Chief Army Reserve Office in Fort Belvoir, VA, signed a proclamation in June 2022, to declare DEED as a proud supporter of the US Army Reserve. This proclamation facilitates access to the reserve facilities and allows greater connection with the military leadership to assist Soldiers and Families in overcoming barriers and obtaining meaningful employment or education opportunities to support mission readiness goals, enhance their financial stability, and create connections with the community.

## APPENDIX A: TITLE II AND TITLE IV PROGRAMS

### Adult Basic Education Integration with One-Stop Partners

The Minnesota Department of Education – Adult Basic Education (ABE) Team delegates its one-stop responsibilities to 39 consortia of eligible providers. There are 330 sites across the state that are funded to provide access to adult education and literacy programs and services. Access to career services takes different forms across the state. Several ABE consortia have at least one eligible provider who has placed an individual on site at a CareerForce Center whereas other areas choose to train partner staff who are present at the CareerForce Center. A few centers have a “direct linkage through technology to program staff who can provide meaningful information or services”. The state had received a Workforce Innovation Fund federal grant to create a new website. One of the features of the website was to build an electronic referral system. However, there have been issues with having all partners use the system, which is a challenge to providing the best service to the client.

Except for the Department of Corrections, all ABE providers offer outreach. All providers offer intake, orientation, and can provide the career service of initial assessment of skill levels including literacy, numeracy, and English language proficiency. All ABE consortia have had training on workforce preparation and how to build those skills into every class. In addition, [Northstar Digital Literacy \(www.digitalliteracyassessment.org\)](http://www.digitalliteracyassessment.org) modules are taught at some CareerForce Centers. The promotion of Bridge to Benefits by ABE programs connect learners to supportive services.

Minnesota is a locally driven state and as such each one stop operator negotiates infrastructure costs between CareerForce partners. Some ABE programs rent space at a CareerForce Center and that is their contribution, others provide additional trainings and services as their contribution, and still others cover all assessment costs as their contribution. Clearly determining infrastructure costs has been an area of confusion in Minnesota. During 2020 there were three meetings with staff from the Department of Employment and Economic Development (DEED) where WIOA Titles I, III, and IV are operated. DEED sought guidance from their regional Department of Labor office regarding some of the questions partners were asking. The confusion and need for additional technical assistance caused a delay in infrastructure agreements.

Memoranda of Understanding (MOUs) were signed by July 1, 2020, for the 16 local workforce development areas. Similar to prior rounds, the state ABE office heard concerns from local ABE providers. The concerns typically related to unclear processes that were not inclusive of ABE and other partners in the MOU development. Developing the MOU is a task that is often assigned to a CareerForce staff member who sends out the document for signatures. ABE providers have requested building the MOU together with all partners so that all partners understand the guidance details, the roles, and how to calculate what each entity can and should contribute.

Each local board has an ABE representative. This representative represents all the ABE providers within the workforce development area. There are also ABE representatives on committees of some workforce development boards. For instance, there are ABE representatives on Career Pathways and Youth Committees.

### State Services for the Blind

DEED’s State Services for the Blind (SSB) provides tools and training for employment, living independently, and accessing print. It is a one-stop inclusive service provider for Minnesotans who are blind, low vision, DeafBlind, or have a disability that makes reading printed text difficult. SSB includes four key areas of service:

- The Communication Center provides access to print in alternative formats.

- The Senior Services Unit provides services to individuals 18 and older who are not in the workforce and seeking independent living services.
- The Business Enterprises Program administers the Randolph-Sheppard Vending Facilities program; and
- The Workforce Development Unit provides vocational rehabilitation services to blind, visually impaired, and DeafBlind Minnesotans seeking to find, keep or advance in employment.

## Communication Center

Access to information for school, work, and everyday life is critical. Whether it's a story in today's newspaper, a textbook for class, a manual for work, a family cookbook, or the latest book from a favorite author, we provide individuals with barriers to accessing print with what they want and need to read. We offer many ways to access information in alternative formats: on a tablet, smartphone, or computer; in braille; or on a digital book player. We loan digital book players and smart speakers at no cost to customers.

In addition to accessing books, newspapers, and magazines through our National Library Service and NFB-NEWSLINE sources, we also have our own radio reading and Dial-In News services. If what someone wants to read is not already in the form they need, we will transcribe it at no charge. As Minnesota's Accessible Reading Source, our goal is to help ensure that all Minnesotans have access to print. To do our work we rely on a dedicated team of volunteers, and the support of generous donors.

## Senior Services

Many of the people we work with have age-related macular degeneration, diabetic retinopathy, glaucoma, or other vision-related conditions that are often a part of aging. Frequently, in addition to vision loss, our clients also face other health issues. Our goal is to help customers meet the challenges of vision loss based on their own needs and circumstances.

Losing some or most of your vision later in life can be frightening and overwhelming. Yet many of our clients tell us that they're pleasantly surprised to realize how a little bit of training, some creative solutions, and perhaps some additional technology can give them both confidence and independence.

We provide services directly or through referral to community agencies. Services include:

- Low vision aids and other adaptive devices
- Travel skill training
- Training in daily living skills
- Training in assistive technology

Our award-winning Aging Eyes Initiative partners with community programs and organizations throughout Minnesota to help seniors adjust to vision loss by providing:

- Information about eye conditions common to seniors, such as macular degeneration or diabetic retinopathy
- Low-vision aids and devices at no charge
- Referrals for more extensive assistance at State Services for the Blind (SSB). Learn more about SSB's services for seniors.

## **Business Enterprise Program**

The Minnesota Business Enterprises Program (BEP) provides profitable vending machine business opportunities to qualified licensed legally blind Minnesotans to broaden their economic opportunities. You've probably come across one of our vendor sites in a state or federal office building, a rest area or on a state college or university campus.

The BEP provides training, certification, technical support, and management services to these self-employed vending business owners. Qualified individuals must work with an SSB counselor, meet the requirements of our comprehensive evaluation process, and complete an extensive training to be certified to operate a BEP vending business.

The BEP administers this program under the authority of the federal Randolph-Sheppard Act and has an exclusive authority to establish vending businesses on state property.

## **Workforce Development/Vocational Rehabilitation**

The Workforce Development Unit provides helps people who are blind, visually impaired, and DeafBlind to explore vocational options, find and maintain employment, and advance in their careers through services such as adjustment to blindness training, assistive technology, vocational counseling and guidance, education and training, and job search and placement services.

We also provide Pre-Employment Transition Services (Pre-ETS) and Transition Services to help youth with disabilities plan for life after secondary school. These services help students discover career and postsecondary education possibilities, gain work skills and experiences, and learn how to self-advocate for themselves.

## **Vocational Rehabilitation Services**

Vocational Rehabilitation Services (VRS) assists Minnesotans with disabilities to find and keep jobs, advance in their careers, and live independently in their communities.

VRS assists:

- Minnesotans with disabilities who face significant barriers to achieving competitive, integrated employment.
- Students and young adults with disabilities who are making the transition from school to work or post-secondary training.
- Employers who seek qualified candidates for job openings.

VRS accomplishes its mission via several distinct programs described below:

## **Vocational Rehabilitation Program (VR)**

The VR program works with people with disabilities to explore employment choices, find and maintain jobs, and advance in their careers through services such as job counseling, job search assistance, education and training, assistive technology, and job placement services. Pre-Employment Transition Services (Pre-ETS) help students with disabilities plan the journey from school to what comes next. Specifically, Pre-ETS helps students discover career and postsecondary education possibilities, how to gain work skills and experiences, what students will need to make their plan happen.

## Extended Employment (EE)

The Extended Employment program works with people with disabilities to keep their jobs and advance in their careers by providing long-term employment support services. Those services typically include assistance in training or retraining job tasks, scheduling changes, adjusting to new supervisors, advancement to new job tasks or positions, and managing changes in non-work environments or life activities that affect work performance.

## Centers for Independent Living

Vocational Rehabilitation Services provides state and federal funding to Minnesota's eight Centers for Independent Living whose missions are to empower Minnesotans with disabilities to live and function independently at home, at work, and in their communities.

## Individual Placement and Supports (IPS)

Minnesota's Individual Placement and Supports (IPS) projects assist people with serious mental illnesses to achieve steady employment in integrated competitive employment by providing a full range of employment services and supports. IPS services emphasize a rapid engagement approach to competitive job searches consistent with the individual's goals, interests, and experience, and are available to anyone who wants to work regardless of mental health diagnosis, substance use, past work history or assessment of work readiness.

## Deaf, Deafblind, and Hard of Hearing

The Deaf, Deafblind, and Hard of Hearing grants provide funding to community partners to provide long-term, ongoing employment support services for persons who are deaf, deafblind, or hard of hearing as well as school-based communication, access, and employment services for transition-aged youth who are deaf, deafblind, or hard of hearing.

## Vocational Rehabilitation Services Strategic Goals:

- **Provide quality services to youth and adults with disabilities for exploration, development, and advancement in careers:** Quality pre-employment transition services are provided to potentially eligible students. Annual goals for numbers of students served are established. Quality VR services are provided to eligible participants. Quality services are provided to participants of state appropriated programs (State Extended Employment program, Individual Placement and Supports grants, Centers for Independent Living grants, Deaf and Hard of Hearing grants).
- **Strengthen Business Engagement:** Connect VRS participants to competitive integrated employment. Connect students with disabilities to work experiences. Develop and facilitate a disability employment collaborative to meet the needs of businesses.
- **Build a healthy organization to achieve our mission:** Achieve fiscal stability. Strengthen employee engagement. Build collaboration within VRS and across DEED. Build human resource capital.
- **Strengthen collaboration through partner engagement:** Coordinate and align services. Timely and relevant communication and training. Engage State Rehabilitation Council for input and feedback.

# APPENDIX B: PERFORMANCE TABLES

Local Area Adult Performance Report - WDA 12, Anoka County				Certified in WIPS: 9/29/2022 4:59 PM EDT

## Appendix Y

The tables below present the percentage of the negotiated measure attained by the State of Minnesota. Percentages over 100 indicate the state exceeded the measure. Percentages greater than 50 and less than 100 indicate the state met the measure. Percentages of less than 50 indicate the state failed to meet the measure, in accordance with [Training and Employment Guidance Letter 11-19](#).

[Training and Employment Guidance Letter \(TEGL\) 14-21](#), issued by the U.S. Department of Labor on June 15, 2022, limits performance assessments in Program Years 2020 and 2021 to only two measures: Employment Second Quarter After Exit (Q2 Employment) and Median Earnings Second Quarter After Exit (Q2 Earnings). The tables below report “N/A” or “Not Applicable” for the four other performance measures.

Program Year 2021 WIOA Performance Measure data is still preliminary and based on comparing Minnesota’s actual levels of performance to our negotiated levels of performance. The release of Minnesota’s adjusted levels of performance by the USDOL may change these percentages.

### Program Year 2021 WIOA Performance Measures – Preliminary

Performance Measure	WIOA Adult	WIOA Dislocated Worker	WIOA Youth	Wagner-Peyser
Q2 Employment	87.8%	97.7%	88.8%	87.6%

Q4 Employment	N/A	N/A	N/A	N/A
Credential Attainment	N/A	N/A	N/A	N/A
Measurable Skills Gain	N/A	N/A	N/A	N/A
Effectiveness in Serving Employers	N/A	N/A	N/A	N/A

## Appendix Z

The tables below present the percentage of the negotiated measure attained by each local area. Percentages over 100 indicate a local area exceeded their measure. Percentages greater than 50 and less than 100 indicate a local area met their measure. Percentages of less than 50 indicate a local area failed to meet their measure, in accordance with [Training and Employment Guidance Letter 11-19](#).
