ADDITIONAL COMMENTS:

Iowa continues to review participation number for the Dislocated Worker program and provide technical assistance to local workforce development areas to increase participant numbers after a closing or layoff has occurred in the local area. Iowa has recently reviewed definition of the dislocated worker program to prevent further barriers to enrolling participants. Iowa has provided technical assistance to local areas on the importance of follow up contacts after exit. Iowa has provided a frequently asked questions resource to the local areas for quick reference.

During a recent monitoring overview training, local areas were provided with the steps needed to set up reports in our data management system to determine those participants who have exited who are still needing follow up contact. Iowa has seen a jump in measurable skills gains after a recent technical assistance training was provided. Staff will continue to provide guidance and technical assistance to local areas to ensure data entry is accurate and complete.

¹Applies to Title I only.

²This indicator also includes those who entered into a training or education program for the Youth program.

³Credential Rate and Measurable Skill Gains do not apply to the Wagner-Peyser program.

⁴Barriers to Employment are determined at the point of entry into the program.
