

TOOL KIT: Transition from PIRL 2018 to PIRL 2020

With the approval of the material changes to the WIOA DOL-only Information Collection Request (OMB Control No. 1205-0521), the Participant Individual Record Layout (PIRL) has been revised to include additional data elements specific to Apprenticeship performance reporting. Beginning with the report quarter ending 9/30/2020, this change will impact how grantees submit performance records in the Workforce Integrated Performance System (WIPS). PY 2020 will serve as a transition period from the previous version of the PIRL (PIRL 2018 - approved November 20, 2019) to the current version of the PIRL (PIRL 2020 - approved June 8, 2020). WIPS users will have to first select the version of the PIRL before choosing a schema. All Apprenticeship data submissions must conform PIRL 2020, as such only the PIRL 2020 schemas include the Apprenticeship specific data elements.

When PIRL2018 is selected as the PIRL Version, the Apprenticeship schema is not available and all schemas will refer to the previous version of the PIRL. Additionally, the Apprenticeship program will not be listed as a Target Program when PIRL2018 is selected as the PIRL Version.

The screenshot shows the 'Workforce Integrated Performance System (WIPS)' interface. The 'Upload Report' section is active, with a red arrow pointing to the 'PIRL Version' dropdown menu, which is set to 'PIRL2018'. Below this, the 'Schema Name' dropdown is set to '- Select a Schema Name (Required) -'. The 'Quarter End Date' dropdown is also set to '- Select a Schema Name (Required) -'. The 'Choose a File' dropdown menu is open, showing a list of schemas: Full PIRL, State Integrated Reporting Schema (SIRS), H-1B, Indian and Native American Programs (INAP), Job Corps, National Farmworkers Job Programs (NFJP), Reentry Employment Opportunities (REO) (Adult), Reentry Employment Opportunities (REO) (Youth), Senior Community Service Employment Program (SCSEP), and YouthBuild. A 'CANCEL' button is visible at the bottom left of the form.

When PIRL2020 is selected as the PIRL Version, the Apprenticeship schema is available and all schemas will refer to the current version of the PIRL.
