- **QPR**
 - Reassign Jurisdiction and Approval Management: Users can now request and create new ETA codes directly from the Reassign Jurisdiction page, save drafts, and track ETA code status. Requests are routed through a new approval workflow, where approvers can approve or reject requests, with email notifications sent to requestors upon rejection.
 - New PIRL2025-version of the SCSEP National Report created and accessible in UI and PDF.
 - Fixed an issue on the NDWG file upload page where the full grant number was incorrectly accepted for PIRL 2021 submissions; PIRL 2021 now requires the correct 7-digit grant number format.
 - ETP report can now be exported to PDF, matching the layout and content of the UI version.
 - ETP self-check ratio calculations now display 4 decimal places instead of 2, for improved precision.
 - Corrected the calculation logic for H-1B QPR 2025 metric G3 (Employed Participants Who Advanced into a New Position) to align with the official specification.
 - Updated the H-1B QPR 2025 F2 rule specification to reflect the logic already implemented.

- Corrected backend calculations for SCSEP PIRL2025 QPR Sections A, C, and D, and updated the SCSEP Rollup Report to align with PIRL2025 reporting requirements.
- Corrected several backend calculation and display issues across the SCSEP PIRL2025 QPR (Sections A, B, C, and D), including participant count undercounts, incorrect rounding/precision, missing rate values, and fields not displaying blank as expected.
