Programs Launched

= 10 programs

6,910 participants

Participants

= 1,000 participants

3,634 credentials

Credentials Earned

= 1,000 credentials

The data presented reflects final grantee reporting as of September 30, 2018. See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor's TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

Arizona Example: The Arizona Sun Corridor - Get into Energy Consortium (ASC-GIEC) produced and shared [curricula, syllabi, and other learning resources](#) on mechatronics, electricity, power plant systems, and energy generation.

The Arizona Sun Corridor's Get Into Energy Consortium (ASC-GIEC), a partnership of the Arizona Public Service Company, Western Maricopa Education Center, and Estrella Mountain Community College, developed a \$16.7 million campus designed to provide a gateway into the nuclear power industry. The campus offers brand new facilities and equipment for hands-on learning opportunities. In addition, the ASC-GIEC worked closely with industry partners and the Center for Energy Workforce Development (CEWD) to create a competency model aligned with industry needs. The partners mapped the CEWD Energy Competency Model to Arizona's Workplace Employability Standards, closed curriculum gaps, and created a standardized core curriculum.

"...[S]tudents who participated in CCC2NAU (Coconino Community College to Northern Arizona University) were 3.54 times more likely than nonparticipants to transition to a four-year institution."
