

Georgia

Total Funding: \$29,486,118
TAACCCT Grants: 5

Colleges

- Albany Technical College
- Athens Technical College**
- Atlanta Technical College
- Georgia Piedmont Technical College**
- Georgia Tech Research Corporation
- North Georgia Technical College**

Bolded colleges are grant leads

The U.S. Department of Labor's TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

Statewide Outcomes

25 programs

Programs Launched

= 10 programs

8,782 participants

Participants

= 1,000 participants

4,124 credentials

Credentials Earned

= 1,000 credentials

The data presented reflects final grantee reporting as of September 30, 2018. See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

Georgia Example: The ATC Times Three consortium shared over [200 program support materials](#) on 3D printing, environmental engineering, manufacturing, prior learning assessments, and many other topics.

"We have an engineering technology program at Athens Technical College that industry is excited about."

Dr. Tremaine Powell, Chair, Engineering Technology Department, Athens Technical College, ATC Times 3 Consortium (ATCX3)

"We are being recognized as a worthy partnership with nationally recognized institutions such as Georgia Tech..."

Dr. Samuel Afuwape, Chair, Industrial Engineering and Systems, Atlanta Technical College, ATCX3

The Central Georgia Healthcare Workforce Alliance is using blended-learning and technology-driven strategies to ensure that working adults, particularly those living in rural areas, are able to participate in the college's healthcare programs anytime, from anywhere, on any device. The Alliance's Blendflex model provides traditional and distance education options for class attendance and support services, allowing students to switch between face-to-face, live telepresence, and online, instructional delivery methods on demand. In recognition of this model, lead college Central Georgia Technical College was named a 2015 Excalibur Award finalist by the Technology Association of Georgia and a 2017 Model of Excellence honoree by University Business Magazine.
