

## Michigan

Total Funding: \$45,661,850  
TAACCCT Grants: 6

### Colleges

**Alpena Community College**

Baker College

Bay de Noc Community College

Grand Rapids Community College

**Henry Ford Community College**

Kellogg Community College

Lake Michigan College

Lansing Community College

**Macomb Community College**

Mott Community College

Muskegon Community College

Oakland Community College

Schoolcraft College

**Washtenaw Community College**

**Wayne County Community College District**

*Bolded colleges are grant leads*

## Statewide Outcomes

56 programs

Programs Launched

= 10 programs

Participants

= 1,000 participants

13,666 participants

Credentials Earned

= 1,000 credentials

15,899 credentials

The data presented reflects final grantee reporting as of September 30, 2018. See explanatory information at <https://www.doleta.gov/taaccct/state-profiles.cfm>

The U.S. Department of Labor's TAACCCT grant program was a major investment in building the capacity of community colleges. Grant funds were not used for tuition, but to create or enhance programs of study that lead to industry-recognized credentials, upgrade equipment, support student success toward completion, and more. TAACCCT supported colleges to better serve workers eligible for training under the TAA for Workers program, as well as a broad range of other adults. TAACCCT grant funding ended in 2018; its ongoing impact is documented in third-party evaluations.

## Examples from Michigan

### Industry Emphasis of Programs of Study

Manufacturing

Energy

Information Technology

Transportation

To find free and open career and technical training resources produced by colleges using TAACCCT funds, visit <https://www.skillscommons.org/>.

**Michigan Example:** The IGNITE Michigan - Intentionally Growing New Information Technology Employees in Michigan project uploaded [86 learning resources](#) on computer programming including java script, Linux/UNIX, and Computer Information Systems (CIS).

The Michigan Coalition for Advanced Manufacturing developed Registered Apprenticeship (RA) programs in which employers provide paid, on-the-job training. The coalition involves eight colleges, more than 392 employers, and the public workforce system, which collaboratively build seamless pathways to credentials with labor market value and jobs in Michigan's manufacturing sector. The coalition also established a statewide system for manufacturing education that aligns curriculum and adds national certifications in mechatronics, production, and welding, all programs that will be sustained through the newly established RAs.

Through its strong employer partnerships, the Multi-State Advanced Manufacturing Consortium, led by Henry Ford Community College, has created pipelines to manufacturing employment, including a dual-system apprenticeship program involving primarily German companies in the state and workforce development projects for manufacturers in Detroit.
